

Local Happenings

Lawrence Padden is employed in Buffalo.

Alfred school district sold their school building to Alfred University last week.

It won't be long now! Last Friday in the midst of our heat wave the News office received its first Christmas card catalog.

Regular meeting of Edward Seaman W. R. C., Saturday night. The initiation scheduled for that evening has been indefinitely postponed.

William E. Hunter of Niagara Falls and R. W. Johnston of Alden have purchased and taken possession of the Lawrence & Merritt drug store in Cuba.

An unusual fire occurred in Canadaeade last week when a load of hay being driven along the highway caught fire from a lighted torch placed by a construction company.

Fingerprinting of aliens in the United States will be done at post-offices between August 27 and December 27. Some 15 questions are to be asked of aliens as they register.

Eight men have been arrested during the past week in connection with oil lease thefts in Allentown and Bolivar. Two have been sentenced to Erie county penitentiary, the others are being held at Belmont.

A number of little friends helped Betty Ann Kemp celebrate her fourth birthday Thursday afternoon at the home of her grandmother, Mrs. Harry Kemp. After an enjoyable afternoon light refreshments were served. Many nice gifts were presented her.

The Moore Steam Turbine Co. of Wellsville completed tests last Thursday on one of the largest turbines ever built by that company. A large Erie freight engine had to be used in addition to the Moore equipment to furnish sufficient steam with which to test the big turbine.

Mr. and Mrs. A. A. Burdick of Hartsville Hill celebrated their 60th wedding anniversary July 24th with a family dinner held at the home and ice cream and cake served on the lawn in the evening to friends and neighbors. Mr. and Mrs. Burdick are the parents of Mrs. June Moland, former Andover resident.

A record enrollment of 34,829 in New York State Home Bureaus this year is reported by Carrie C. Williams, assistant State leader of home demonstration agents. This compares with 31,169 last year and 28,996 in 1938. Home Bureaus are now organized in 39 of the state's 55 agricultural counties and in three large cities.

Lieutenant-Governor Charles Poletti is the featured speaker at this year's potato field day, to be held near Batavia on Thursday, August 8. This is the eleventh year of the event which each year attracts from ten to fifteen thousand farmers. Visitors will see 75 acres of potatoes, demonstration plots, educational exhibits and farm machinery.

Mrs. Leon Cook is at her home under the care of a doctor.

Walter Sherman and family of South Hill have rented the upstairs apartment in the Mullen building on West Center street.

Carl V. Clarke and Edgar Cornell were elected to the G. L. F. Patrons Committee at Whitesville last week to succeed themselves for a term of three years.

The Ebenezer Oil Company, owner of the Baldwin Block in Wellsville has announced that extensive improvements are to be made to the block in the near future.

The Three Link Club will meet at the home of Mrs. F. S. Potter Tuesday, August 6th. She will be assisted by Mrs. Pearl Mesler, Mrs. Clara Hann and Mrs. Myrtle Minigus.

Mr. and Mrs. Ted Cook of Greenwood Hill are parents of a seven and one-half pound son, born Wednesday, July 31st. Dr. S. B. Scott and Mrs. Hattie B. Eggleston are in charge.

The U. S. Government has given a mile-square area at the New Jersey Naval Air Station for a game bird sanctuary—pheasants, quail, mallard ducks, Canada geese and other wild life are to find here a shelter from the shotgun and rifle.

The Sherburne pheasant farm, purchased by the State in 1909, will be rededicated this Saturday, August 3rd with the unveiling of a plaque and the renaming of the farm as the Rogers State Game Farm, in honor of Mr. and Mrs. Harry T. Rogers who have done much successful pioneering work in pheasant propagation.

Mrs. Frank Holmes and Mrs. George Sackett entertained Friday evening at a bridge dessert and shower in honor of Mrs. John Clark at the home of Mrs. Holmes. Prizes were awarded Mrs. Wm. McGee and Mrs. Robert Dean in contract; Mrs. Ray McGill and Miss Helen Folsing in auction and Mrs. Ralph Burgett in rummy.

A few old friends and neighbors gathered at the home of Mr. and Mrs. Dan Appier of Second street last Thursday afternoon for a picnic dinner on the lawn. Cards were enjoyed by the guests. Those present were Mrs. Anna Benjamin, Mrs. Mary Burns, Miss May Dean, Miss Lenora Dean, Mrs. Frank Dean and daughter Teresa, Mrs. James M. Dean, Mrs. Michael Garvin of Pittsburg, Mrs. Edward Horan, Miss Nora McAndrew, Mrs. Thomas McAndrew, Mrs. Mary Keough of Wellsville and Mrs. Lou Snyder.

Dates Claimed
Friday, Aug. 2.—7:30 o'clock, dessert and cards at home of Mrs. Ray Snyder, by American Legion Auxiliary. Public invited.

Plain curtains, without a pattern, are usually effective when the rugs and other furnishings in the room do have a pattern.

Waftings From WANDERING WILLIE

ONCE again the city dads are asking the folks of the village to go easy on the water, and once again as in years gone by, we expect to see several of these same folks wait until they think no one is looking and then go right ahead and use all the water they want on their lawns and gardens.

But did you folks who have been observed year after year doing this little trick ever stop to think what would happen if Andover had a serious fire during the summer months when the water is rather low in the reservoir? Well, the story would be something like this:

The whistle would blow and the trucks would go out—and if the fire was not near the creek or if the creek was dry the boys would naturally have to hook to hydrants, and after hooking to the hydrants would begin hauling water at the rate of about 1,200 gallons a minute. And perhaps the Wellsville boys or some other company would be in also to tap these lines for another 700 gallons per minute, and you can figure the rest out yourself.

The city pappas don't ask anyone to go easy on the water just to be mean. Pay E. checks those springs and the reservoir during the summer as tho they were the only ones in the world, and when they get just about so low then something has to be done—and it's up to you folks who think you have the only lawn in the world that can help the situa-

tion. Be as fair as your neighbor!

AFTER playing top-ball all year so far, we could hardly believe it when word came to Andover by special messenger that "Bus's Busters" took a nose-dive over at Angelica. It is hard to blame it on the weather, or the war in Europe, or what have you, but if we can find something to blame it on, we'll do that little thing. Personally we think the farm boys over that way are more used to Old Sol's warmish rays.

WE don't want or mean to criticize, but the youngsters of Andover are still in need of a swimming hole. Many and varied have been the attempts to provide Andover children with an adequate place to swim during the hot weather, but they invariably end up at the old Elm Valley holes or somewhere else where the water and conditions are more to their liking.

Some years ago the city dads made a nice pool up at the athletic field and it was crammed with kids day and night until the flood came along and knocked it all to—blazes. And they went back to the old reliable places.

Then the Exchange Club put a lot of work and money into a pool up at the ponds, but nay, the scum and debris familiar to all slow-moving water collected in the pool and spoiled the swimming—so back they went to the old familiar haunts about three miles from the village. Some way should be devised to build a swimming pool in Andover that could be cleaned when it becomes dirty, and where flood or other conditions of the weather could not harm it—and one that could be a little closer to the village or to a phone in case of accident—even tho it would set the burg back for a

few years in paying for it. It would be better, in our opinion, than to pay out in smaller sums year after year and still have no real good place to bathe.

WE haven't heard a peep out of Chicken Hollow for the past several weeks, so cannot give the low-down on the Hollowers. It was reported last week that for the first time this year sunlight was available at the upper end of the Hollow when some of the more enterprising boys up that way pumped sunlight to the upper-enders. That's just a report.

Infantile Paralysis Clinic August 6th

A consultation orthopedic clinic for infantile paralysis and other crippling conditions will be held at the following places on August 6: Belmont, N. Y., Town Hall, 10-12 a.m.

Cuba, N. Y., Baptist church, 1-3 p. m.

The clinic will be in charge of

U. S. OFFICIAL WEATHER

ROOFING REPAIR TIME!

These hot days, cool nights and just enough moisture to excite impatience aren't going to last forever! Some day there will come a change with plenty of rain and a temperature to chill us thru.

Summers are more or less hard on roofs. Wood shingles will split and curl, warp away from flashing so that driving storms of rain and snow will find easy access to interiors, producing decay to structure and damage to contents. This is true also of metal and prepared roofings.

We urge you to take advantage of these pleasant days to go over your buildings, search out and repair at all points that appear likely to cause trouble or positive bits of damage.

We can supply your every need in materials for roof repair—

ROLL ROOFING—3 weights, priced at \$1.00, \$1.25, \$1.50 and an extra heavy 75 pounds at \$2.75.

BLACK FIBRE ROOF PAINT in 5-gal. cans at \$2.25.

CHANNEL DRAIN GALVANIZED ROOFING at \$6.50 per square in 26-gauge iron.

We buy in large quantities and have a lower delivered price than many of our competitors. Get our prices before you buy!

COOL THE CORNERS! Electric Fans:

STATIONARY TYPE at 98c, \$2.50, \$3.50 and \$3.98

OSCILLATING TYPE at — \$3.50, \$4.50, \$6.00

Avoid the discomforts of hot weather by having a continuous circulation of air, and an Electric Fan can do wonders to produce comfort and enjoyment during the warmest months.

A FOOD PRESS!

Ideal for ricing vegetables and for the jelly making task. Made of high grade Mirro Aluminum with wooden mallet for pressing foods thru—Sells at 89c each.

Slam! Bang! Goes the Screen Door

Try an Air-Cushion Check which is made for screen and other light doors or casement windows—35c each.

CARBORUNDUM HONE!

A No. 57 Hone will do more work and do it quicker than a grindstone on that dull cutter bar. Try one and you will never be without one again, especially during haying season—85c.
