RANDOM SHOTS By RALPH SHAFF

The time has come to take the pup out and give him some setting-up exercises to keep up his technique and harden him up for the hard days hunting ahead. Don't expect Fido to go out and do his best if you don't give him a chance to get hardened in to the job.

The law says not to take a gun or harm any bird or animal, so do the best you can by the pup and the game both. The Rod and Gun Club seems to still be getting quite some publicity in regard to the wild turkeys that are owned by the private Wild Turkey Club of Andover.

The club members are showing quite a lot of interest in various activities since the clam bake went off so good. They are now talking about a chicken shoot.
