Debunking False Prophets

DOLF HITLER and Benito Mussolini, masters of Roosevelt in this Presidential election was neces- as the British base stands at Singapore. sary to their plans. This was revealed in a dispatch from Rome by Herbert L. Matthews, a most dependable aid to Great Britain as the first line of America's deforeign correspondent of the New York Times. So im- fense? wisdom each move that the dictators have made.

in private industry.

In less than three years the United States Housing Authority has brought 5,000 persons out of the slums. Register to Vote provided homes and an average yearly income of \$750. The deeds accomplished by the New Deal are unrivalled T TNLESS your name is registered you cannot in the annals of progressive America.

entrusted to a man who will protect the interests of the will be the final day. common man.

new electric lines- 770 new hospitals.

The last seven years will go down in history as a great humanitarian contribution during which a great leader in President Roosevelt set us on the road to national rehabilitation, renewing our faith in the American way of life and our own spiritual resources. What can our Republican rivals offer instead?

It is a poor compliment to the intelligence of the 40,000,000 workers in this United States to have the Republicans say they will more efficiently and conscientiously enforce laws, passed by the Democratic Administration in behalf of labor when they are the very ; ones who fought these laws with every legislative and financial means at their command.

If the opposition should succeed, their object would be to wipe out the reductions the Democratic administration has already made, kill the rural electrification fact that properties are over-run with city hunters who cattle. The sale of surplus cattle H. E. A. writes: "Kindly tell me program; turn the water power of this nation over to in the majority of cases, have little or no regard for makes a good source of extra farm what to do with a lawn on a terrace selfish interests and increase the power rates. Frank-ifences, property or sown fields. lin D. Roosevelt meant it when he promised to preserve our social gains.

along more swiftly?

Is the fact that it is not customary, a reasonable trol hunting on their property and if violations occur argument against a third term? It seems childish, and law enforcement officers should be immediately conas reasonable as refusing to move up from the powder-tacted. ed wig and knee breeches of our first Presidents. there is no fault to find other than the "traditions" the elders" being broken, why mention it?

fails to open, somebody gets in trouble.

A Turning Point In Europe

ERMANY'S war tactics in this period of world war are similar to those in 1917. When affairs were not going well with Germany it was a good policy to direct America's attention in another channel. The aid that the United States has been able to give to Britain has caused alarm in the dictator's plan. is necessary to try something different. As we have commented in previous editorials, if the Germans didn't icceed in the downfall of Britain they would attempt neadway thru the Far East. Watch Tokyo next week. OCT. 17, 1940 On this Wednesday, Oct. 16, President Roosevelt enorced the embargo on scrap iron being sent to Japan. On Friday, Oct. 18, Britain has promised to reopen the Burma road to supplies for China.

This is a turning point in Europe and in the Far East. HUGE FIRE LOSSES

According to official statistics, a human life is lost every 50 minutes in the U.S. thru fire, and 20 homes burn hourly; 40,000 persons are annually ind by fire. The financial loss exceeds \$350,000,-1 000 each year. Indirectly, this huge loss of property is a tax burden that affects every property owner i.

Over 90 per cent of fires are preventable, being the direct result of carelessness or neglect. Forty-two out of 49 causes for fire are among those regarded as "strictly preventable." In 65 per cent of the total losses of the country, the fire departments are "licked before they get there."

Therefore, the remedy is to stop the small fire before it quickly develops into a big loss. Fire strikes at rich and poor, intelligent and ignorant. No person is immune. Fire has no geographical or seasonable restrictions.

In addition to large daily loss of life thru fire, statistics show that on an average there are 618 dwelling houses burned daily, 96 farm buildings, 1 hospital, 4 warehouses, 15 hotels, 5 school houses and 5 churches. Over 80 per cent of deaths by fire occur in private homes.

I HOW REGULAR SUBSCRIBERS TO I THE ANDOVER NEWS MAY OB-TAIN A FIRE KILLER NON-LIQUID EXTINGUISHER FOR 99c.
