and effectively in times of emergency deserve the support of every person who believes in the value of dem-

The Boy Scouts of America believe that the way to fight those forces which would attack our democracy is to be democratic. And to that end over three hundred and thirty thousand Americans are giving voluntary service to the million and a half members of the

An example of the way in which Scouts are keeping clear and open minds under present conditions, the welcoming of Scouts from foreign countries to affiliation with Troops in the Boy Scouts of America. American Scouts are mixing with foreign refugees, giving them the spirit of the American Way, and taking in return a true knowledge of conditions overseas. Scout Leaders are sparing no efforts to prepare American youth with the knowledge and skills which will make them valuable in times of emergency.

#### Sausage Time

EPORTS from various sources indicate that more! meat for home consumption is being raised on American farms. After the holidays, when cold! weather has settled in, meat-making time arrives. — Lincoln Tradition Must Go On Hams and shoulders and slabs of bacon are being cured! and smoked over corn cobs or hickory chips in the pleasantly pungent smokehouses.

odors that proclaim sausage-making time! to seasoning the big kettles of ground-up sausage, the at this time when those certain tangible as well as in-should help you find the trouble. electric lights in the poultry h recipe said (as good recipes usually do), "Season to tangible liberties which we name democracy are chaltaste." Mother would put a generous pat in the big lenged. iron skillet for a trial. "Pretty good," we would say. Perhaps, to date, no one person in our American two cows, which means that maybe laying during the months of Novem-"But to get a real taste, we ought to have a little history ever had such an influence over all classes of one animal is responsible. Perhaps ber, December and January?"

#### Highways Important

modern automobiles—roads that can take the speeds us what it may become, can become—not what it used to one gallon, you may be able to and as a result an improvement of which today's cars are capable—that is the goal the to be. The glory of the free way of life is not in what collect the fat. Let me know how the price received for the eggs."

miles of roads within and approaching military reserva- be repressive but dynamic and constructive. Many tions and industrial sites is a vital necessity for nation- people dreaded having democracy challenged in 1860 al defense. At present there are 175 camps certified only 96 years after it had been formally installed. They for defense roads, but this figure is certain to increase, recoil no less today Moreover, there are 75,000 miles of long distance routes, known as "the strategic networks," in need of the democratic idea came thru Lincoln. The 17th and strengthening. Route 17 is one of these networks. 18th centuries won civil liberties by protecting persons These highways have many weaknesses. Thousands of and property against arbitrary seizure and force. The miles of them are less than 18 feet wide, as many more 19th century established political liberty thru the right miles are deficient in surface strength; bridges in many to vote and hold office. This generation and the folinstances are not strong enough and lack the standard lowing must mold conditions of social life to a higher width. The highway engineer seems to have caught level, remove special privileges and obstacles to the up with the automotive research laboratories. Un- full development of personality with accompanying exdoubtedly automotive laboratories have just been wait- pression of liberty, education, economic security and ing for growth of modern express roads before product cultural opportunities. There are many tools now ing the real "teardrop" car which will provide gasoline available for this constructive building. This must be economics and split air currents at 60 to 100 miles an our vision today and must come with ever more vivid hour. No one can predict the cost of such a program clarity now, when opposite thoughts are asserting that is still in development. It will need a large supply themselves. We have never lagged behind in genuine of men and material. But with the threatening world achievement for the common good, and we must not situation, "we are forced to build up on land, sea and now. Bir, forces able to meet and master any contingency."

Most of our troubles come from cock-sureness should be not to impart his own opinions, but to kindle among the know-it-alls and cold feet among the really minds,

The world usually pushes a man the way he makes up his mind-to go.

Character development is the real objective of the . Every step in the Scout program is but a means to this end

#### FEBRUARY

EBRUARY, second month in 1941, lasts for exactly four weeks, a total of 28 days. In order that readers who are calendar conscious and others enjoy being reminded of events past and present may be informed, we present something for each day

Feb. 1, George Washington elected first president of the United States, 1739, Feb. 2, Groundhog Day or maybe you call it Candlemas Day); Japanese earth , 1703. Feb. 3, Horace Greeley born, 1811; <sup>†</sup> severed diplomatic relations with Germany, 1917. Feb. , beginning of Philippine-American war, 1899. Feb. Henry Clay's famous oration in U. S. Senate, 1850; Tuscania torpedoed, 1918; Haye-Pauncefort treaty for J Panama Canal signed at Washington, 1900.
