LIBRARY ETIQUETTE

I guess the second graders know how to use the library anyway. Monday at 3:15 they walked slowly into the library, every person chose a book which interested him or her most and seated himself at the table.

"THERE'S NO WAY LIKE OURS"

Says Mr. Sidney Hollander, speaking of our weekly observance of "Bill of Rights Week." The Hi Herald published a short editorial last week on this subject, but found the following article to be so important as to warrant its repetition.

George Washington and Democracy

Whose birthday do we celebrate the 22nd of this month? The answer is George Washington's, the Father of our Country. When we think of Washington we invariably think of the incident of the cherry tree.

Phyllis Burger, Oh!

When the Valentine box in the second grade was opened last Friday a Valentine for "Betty" was found. Who was Betty? Both teacher and pupils were puzzled until Phyllis Burger spoke up and said that the Valentine should have gone to Clarksville.

Eighth Graders Hold Feast

A delicious afternoon luncheon dessert of jello and cake furnished by the eighth graders was held in their room. The girls washed the dishes because, confidentially, they didn't trust the boys.

Since this was the kindergarten's first party, they enjoyed it very much. A few remarks follow: Kent Harder: "Look how many I've got! Who's this from?"

Movies Explain Our Vocal Power

The usual gathering of students was assembled in the science room Monday afternoon to see several movies of scientific interest and were especially interested in the first movie shown entitled "The Voice That Science Made."

Latin Found In Music

The victims of Latin II have recently been in the process of translating the quite familiar myth concerning Jason and the Golden Fleece. To their surprise, a few of these students found themselves playing a band arrangement of this same story under the title of "Seeds of Cadmus" which was supposed to be a "tone picture" as it is called of this mythological happening.
