the American market since 1900.

Democracy Depends on Character

al way cause revolutions and wars, or call for arbitraness, lack of respect for the ideas of others, lack of opportunity to express ideas, and to develop according his office in Belmont. to the pattern of each member's abilities. There may sum set opposite each parcel -LUMINUM. the silvery white metal that English- be one member who is a dictator or there may be such men and scientists pronounce in five syllables oualities as unselfishness, brotherly love, mercy, instead of four "a-lu-min-ee-um" is to the mili-tice, freedom and independence of thought. Thomas tarist one of the essential raw materials, to the chem- Mann declares "the human content of democracy and um in the world but it just doesn't grow but is always Democracy is the one form of government entirely

hiding in other things, notably bauxite. You can't have dependent for its perpetuation upon the character of airplanes unless you have aluminum and you can't have its citizen. What is character? Florence Nightingale says "you must make. your. thoughts, your words, your On March 22nd, which is going to be a memorable acts all work to the same end and that end not self, date, by the press of a button, an engineer sitting at but God. That is what we call character." The seeds a control board in a power house at Grand Coulee Dam for a democratic way of life may be sown and nurtured in the Pacific Northwest, will start producing electricity around our own firesides and the wives and mothers from Grand Coulee for the first time. The Grand Cou-Jare often the guiding influence in this development. There isn't a home in America where a child dwells structure ever built by man, and on March 22 starts that does not need a mother to keep him fed for health, producing its first electricity having an ultimate capa- clothed for warmth, self-respect and poise; housed and city of 1,920,000,000 K.W., the largest power plant in environed to develop in any walk of life. Every child There will be eighteen 108,000-kilowatt should feel that someone believes in him, loves him, generators, each one of them larger than any now in wants the best for him physically, mentally and spiritexistence anywhere. Incidentally it takes a train of ually. Every child does not receive this. Building 75 freight cars to transport just one of these genera-character is the renewing of the mind, the continual tors. The increasing jump in power is nothing short discarding of false beliefs, and unworthy habits of of fantastic, but at the rate the demand for power is thinking and replacing with noble thoughts and true increasing in the midst of the defense crisis, the story ideas. It must be the all-important goal in training the is bigger than the Grand Coulee Dam. It is interest- young citizen for his responsibilities and every opporing to recall some of the poor guesses that were made tunity should be given for practice in these essentials.

America has contracted at Vancouver, Washington, to OR some years designers of men's clothing have make the first aluminum produced west of the Missis- been trying to convert the male American to sippi River-150,000,000 pounds a year-enough to | livelier sartorial palette, with slow success. make 1,500 army bombers. The demand for power is recent preview of Spring fashions in New York, however, predicts an approaching "era of elegance" The mention of aluminum brings a picture of glis-men's attire in "jewel" tones, including twilight blue, littering wings or sturdy ribs, spars and pistons, but there Capri blue, plum, wine, maroon and green. Carmel are at least three other essentials that aluminum per-| Snow, editor of Harper's Bazaar, it is noted, complainform for aviation. One is paint, a second a formation ed that the men she saw about town were only "blueof "incendiary bombs" that are searing the face of Eur-gray shadows timidly following in the wake of their

officers use in flying across the oceans. The glass the copy-writer will be leaping more exurberantly than breaks on striking the water and the substance quickly ever across the half-page advertisements of the retail spreads into a wide and mirror-like slick visible either stores. No longer will the seller of worsted suits be day or night and most successfully used in sub hunts. permitted the modest announcement that "these are of-Thus the ingenuities of peace are swiftly transferred fered at substantial savings," or that his wares are "year 'round weights." He will be gurgling instead, 57 | "Let us clothe you with the suit that fits your charac-True, we have only one life to live, but the way ter. No more conservatism! Wear our Beau Brur please even that critical-woman-in-your-life."

For the man of affairs he will offer the "career Diogenes replied: "Whichever you do, you will repent costume." Casual as a stroll at Palm Beach, yet smart as a walk thru the Bois de Boulogne before the occupation. Watch the contracts roll in. Prosperity, by A chip on the shoulder often indicates there is day and popularity by night! "Choose the color that does things for you. We have it in spinach green, ice blue, coral pink and shirred aqua." What an "elegant era" it will be when the "blue-United States today depends for his job upon one or an- gray shadow" begins to take the lead!-The Christian

All the problems of the world could be settled on his feet a lot quicker than the one who lies down easily, if men were only willing to think.

The difference between the draft and marriage is Over 100,000 new products have appeared upon in one you may get in the guard house, the latter always in the dog house.
