The sergeant came up last night and gave us a lecture on behavior and then read some articles and I didn't get a chance to write. Some of the soldiers got drinking in Petersburg, Va., and raised Cain—and so the lecture. We have had two fire alarms today and had to fall in line in front of our parracks each time. The sergeant just came up and told us that we would have to get up at 5 o'clock tomorrow morning (the men in the upstairs barrocks) as so many new men are coming in that we can't all get in the mess hall at one time. I guess we will get paid the last of this month or the first of next.
