It's not as impossible as it sounds you know. Student council members and the high school in general believe that another dance is a necessity (to keep up the past record), but they also know that because of conditions and scheduled proms and balls we can't have an orchestra.—

So we'll have a "vio 4-" conditions and scheduled proms and shalls we can't have an orchestra.—
So we'll have a "vic dance." Seems like this year we're trying everything once and succeeding always too. There are several students that would like a vic dance. One that leads to the control of the contro could come just as soon as we get back from Easter vacation. Lent back from Easter vacation. Lent season will be over, it will be Spring (tra la) and so forth and proper time for promenading to the strains of Miller, Dorsey or Krupa (take your pick.) The following remarks are what zeveral pupils expect of their teachers:
