What the Citizen Can Do To Help

HE following is a foreword by General Pershing who "commends its message to every American." Some of the passages are reproduced here in

What can 130 million Americans do? Plenty!" The pamphlet declares: "America needs guts as How to Live Longer well as guns, and that National character is the core won't buy it! It is your job to built it." America offers the following hints: needs a change of heart. We must live the American way. Americans are honest, unselfish, neighborly. clean and free. Or are they? Are you? All the time?

A new spirit can grip your heart and mind and wear. The added strain may also cause some parts to at a meeting held last week and Mr. muscle-if you are willing. You can change. The first step is to face facts about yourself. Hon- a long time. est? Unselfish? Neighborly? Clean? Free? home, in industry and politics?

If not, what can you do about it?

Or is it the main point?

achute troops in the night, fear, hate and greed have slipped into our homes, our industries, our communi character. The fight is on. The fight against our softness,

graft, laziness, extravagance, buck-passing, materialthru every home, every office, every factory, every

He is preparing to market—mainly when you stop for gas on the road. with the public rather than big institutions—three new what reminiscent of those sold during the last war.

and the most obvious, is the raising of large sums for the defense efforts. Equally important, however, is to traffic is comparatively light, rather than express high- Jennie Sanders of Westfield. tap the new earning power of the masses. This latter ways where it is usually heavy. goal, if achieved, would make possible the impounding of a good slice of rising public income to the end that early and start back early. if it isn't spent on goods it won't contribute to an inflationary orgy. Morever, if it is saved over the next few years it will be there as a cushion some day when You Can't Cut Down people aren't making what they are today. Types of Bonds

Here, briefly, is a description of the new types of (1) Defense Saving Bond: This series replaces the familiar "baby bond" and is similar to its predecessor in every way except that it isn't tax exempt. This clouds!" is the security designed for savers of very small means.

ity value) in any single year. a lower interest rate, and matures in 12 years. The up to \$50,000 in any year, and can present the bonds for payment at any time. If held to the due date Series F pays 2.53 per cent.

(3) Series G Savings Bond: This bond is to be earth sold at par (pieces of \$100, \$500, \$1,000, \$5,000, and \$10,000) and pays interest at 2½ per cent semi-annually. It is non-transferable but can be presented are immortai . . . they will survive! for payment on 30 days notice. The payment, however, will be below par at any time prior to the 12-year maturity. It will be taken up at \$98.80 after six Thereafter the redemption price declines to \$94.70 during the fourth year, and then rises gradually to par at due date. Buyers may take \$50,000 those electing to buy of both Series F and Series G can

get only \$50,000 altogether, not of each. (4) Postal Savings Stamps: These are in mominations of 10c, 25c, 50c, \$1, and \$5. They pay! no interest but are designed for conversion into the new baby bonds when enough have been collected.

Patrictic Appeal New baby bonds and Series F are for in
