Current Comments AS VALEDICTORIAN

I feel very honored and think that it is one of the finest practices

the country has, (Naturally Eleanor and I agree!) It is a reward that you can be proud to carry with you

you can be proud to carry with you for a long time. And also as far as work and a later career are coneerned, the fact that you had the highest average in your school does not exactly do any harm.

I suppose in this Current Comment I should pass on a little "sage" advice", but there isn't much to advise. Everywhere you go they are going to ask, however, not only what were your scholastic marks, but also what extra curricular activities did you have—so get as many of those in as possible and get really good at one of them. That's the advice I give.

I like everything about this being Valedictorian except that speech on June 25th!

Current Comments HONOR MARKS AND PARENTS

Everyone likes to have honor marks, but some feel they are incapable of this task. In order to attain 90's in any subject, a student must do a large amount of consciencious work. In languages and mathematwork. In languages and mathematits, especially, a good student often has to spend an hour and a half or two hours on one assignment. But gram is sponsored by the Senior Class.

sents consciencious effort and an uncrestrained desire to succeed.

Most of us are capable of doing better work than we do. One of our Friday June 6 is all teachers took an inventory to find out just how much better work we are capable of doing. She told her elasses that Friday's homework papers would be filed for the parents to see. After comparing daily average with the average of Friday's papers she found that these papers differed 22 points on the average. Some marks improved as much as 67 points and even the 95's improved to 98's. Certainly, since good marks are possible, why not have proper of them? more of them?

Those extra few minutes will be rewarded by good marks and sincere respect of everyone.

Maybe the empty void you made was so terribly noticeable because we can't find another "artist" to scribble for our posters and make us laugh with comics. Maybe it's be-eause there's no one here now that cocks a battered brown hat over one eye and wears an equally battered suede jacket with Mutt and Jeff, Blondie and Dagwood drawn on it. Whatever causes the desolate feelwhatever causes the desolate feeling of loss, the empty ache inside of us, we know now, Leo, that it never can be filled. Red-headed fellows with trilling whistles and fancy dance steps are just too scarce and hard to find. Andover will never have another. That is what we've ome to realize since last year, Leo.

Proceeds to Go For Uniforms

Friday, June 6 is the date! That is the time when the Andover Cen-tral School Band will come into the limelight at last and will offer an evening of musical fare to the comnunny. After having labored vig-orously for the entire school year, and having prepared some very in-teresting music, the band members are welcoming this chance to "strut their stuff" in public.

The concert is also very import-ant in another sense for it marks

their stuff" in public.

The concert is also very important in another sense, for it marks the initial step toward the purchasing of uniforms for the band. Much talk has flown to and fro concerning the prospects of uniforms. Thus it was decided to "get busy and do something about it." The band hopes to get the support of each and every person in this community, so that the uniform fund can start with a "bang," and that by this time next year the band will be appearing in those swell uniforms.

Watch for the program in next week's Hi Herald and come prepared for a real musical treat.
