Commencement Time

the end of high school, for they plan to continue their French possessions in the Western Hemisphere. studies in colleges and universities.

To the parents and friends of the graduates it is a time of pride in their hopefuls, a time full of the satisfaction of work well done by the graduating students. How Are You? To others it is a season of several school events, always of great interest to the community.

Two Commencement programs, a Baccalaureate, the

Alumni Banquet and Class Night complete the schedule, full of exciting events for the participants and interest for the people of Andover. We recommend attendance at the various functions.

One recaptures youth and enthusiasm in the comme.
