

### THIS BANK IS EAGER TO MAKE LOANS

THE MONEY we have available to lend is our stock in trade and, like a progressive merchant, we are anxious to keep that stock in use. Sound loans are an important source of bank earnings, so we naturally welcome opportunities to make them.

Unlike the merchant, however, the funds which we lend belong to our depositors and must be returned to them upon demand. Consequently, before making a loan we must make sure that this money will be safe during the life of the loan and that it will be paid back promptly when the loan matures.

A loan helps the borrower, puts money to work, stimulates business, and keeps men employed—all resulting in earnings and savings which help the bank. Your loan application will find a welcome here.
