Let us take from its fleeting. days and hours all that we can to further our good and HE National Parks of this country were visited welfare, health and enjoyment, not forgetting renewed activity in business and the professions.

## Russia and Germany

was drawn last August, it was considered heavy blow to the Allies' side. It is not known increasing number in the months to come. just what agreements were made but it was evident that the Nazi military leaders did not dare to provoke a war with Russia, thus having to wage war on two Eight Causes For 85 Per Cent fronts. It is an astounding fact when we are on the Of the Fires verge of war with the Axis Powers and bending every effort to aid Britain, that the Germans declare war on ESPITE the fact that timely warnings have been Russia. There are three outstanding points brought out | | published of late, the old hazard of home fires by this move:

as at present.

Hitler into the Ukraine for supplies denied him elsc-less use of matches and smoking; careless use of keroand the Nazis, unable to control the seas, were com-electric appliances. Soviet Russia. Having pillaged the wealth of all of the points to note are: Is the radio antenna well

ler himself. His admission over the radio that there matches kept? was need of military aid from all the conquered countries. The Germans for the first time in this war are now meeting an antagonist who has military power Costs Less to Fly Than Drive comparable to their own. Whatever successes Nazis may have will be obtained at a great cost equipment and oil supplies.

## The Cheese Crisis

ERHAPS some of you housewives have made speland fuel to operate a plane, the contrary is the case. tain the same. Well there is a reason. Secretary of Seattle, Denver, returning to Dallas and then to Detroit Agriculture Wickard has asked Americans to cut down it costs \$30 less to operate the airplane. on their cheese consumption so more can be shipped to Britain. We hope the time will come when we will fact that the distance by air was 7,590 miles, whereas have all the cheese we want to supply ourselves and by automobile it was 9,230 miles. However, even with which goes for the housewife as well as for the pro-gallon than the automobile.

This spring the government bought up nearly 30,- used \$93.72 worth of gasoline and \$4.36 worth of oil 000.000 pounds of American cheese, chiefly for ship-[for a total of \$98.28 for the trip. The automobile, a ment to Britain. The dry weather has affected the standard model, consumed \$109.61 worth of gas and pasturage, cutting down the milk supply, and thus a \$10 worth of oil for a total of \$119.61. shortage in cheese products, so about half the amount of cheese the British Food Mission set as Britain's re-I was no comparison at all as the plane averaged quirement has been obtained. The cheese factories miles an hour whereas the automobile averaged 40. It have been asked to install more vats and expand pro-Itook the airplane only 78 hours to make the trip whereduction by operating on 24-hour a day basis. The dairy as in the automobile it took 237.5—and a man's time farmer is going to get more for milk to be used in is worth something too. cheese, so if the housewife will be patient and be willing to make sacrifices she will be doing her bit towards the defense by substituting for cheese until that time admit.

We imagine that the butcher feels hard times a wants lot sooner than the sellers of silk hosiery.

when the supply will be enough for the demand.

## Dangerous Months

EWARE the ides of March may sound good in lent statistics disclose that they are the most dangerous months of the whole year.

Two thousand dead each week—one every five Association of Casualty and Surety Executives. With international events, the prospects for avoiding an even out the nation. higher death rate this year are none too good, say the

Isafety specialists.
