Mr. and Mrs. Carl Clarke and Carolyn are visiting their sisters in Watstown, Harrisburg and Huntington, Pa.

## THE HI HERALD

(Continued from Page Six)

think that Elaine, in her role of heroine, acts too natural!

Noise blowing does give expression! Arthur tried it out Tuesday night and it surely worked fine.

Does R. L. live up to George's idea of the perfect girl he can't find in "Some Call It Love"? This yodeling is pretty good, even the lack of practice makes it a bit hard on the ears.

Marilyn is "a natural" in her role of "Margie" and Ruth does very well also, untying Joe's shoes.

ACS

## Social Hour Held

The usual weekly Social Hour was held in the local gym Monday night from 7 'til 9 o'clock.

A new type of dance was instituted at that time. It involved the same principles as a square dance does. Don Emery acted as caller.

Few caught on the first time, but practice makes perfect, and everyone had a great time swingin' his partner before the evening was over.

ACS

## Meeting Held

Jean Rogers, editor of the Hi Herald, called together last Thursday afternoon the first of a series of meetings to be held on Thursday afternoons for Hi Herald members for the purpose of news-construction work.

The members were given mimeographed sheets containing notes. Using these notes, they wrote news stories, the best of which were read aloud to the group as models. Jean Rogers and Victor Oakes, with the help of Miss Colberg, explained why the articles were written good or bad and how they could be improved. From this type of work, better articles are to be expected with much less recopying needed.

ACS

## Two Fire Drills

Twice in one forenoon came the ominous clang of the fire alarm and twice the pupils and teachers of A. C. S. marched out of the building in fire drill formation, thereby increasing the total number of fire drills to date to five. These last two were held last Friday morning.

According to Principal Bretsch, the pupils moved out of the building in less than two minutes, and by having the two drills during different periods they were given practice in making the exit from different rooms.

Twelve fire drills are required by law during the school year with the majority of them during the fall months.

Don't be tied to a "slow-poke" range!

## MODERN GAS RANGES

are faster in 3 ways

OVENS—BROILERS—TOP BURNERS all have been speeded up to cut cooking and baking time to a minimum. For you this means an hour longer at bridge or shopping when you own a new improved Gas Range—yep! you'll have supper ready at the usual time. Come in and see these beautiful ranges. Look them over—hear about their wonderful automatic features.
