GAS TANK TOPICS

Did you know that there is so much difference between the wear your tires get that the left front takes only 14% wear, while the right rear suffers over double, or 38%? The other tires are in between. Cross switching every 5,000 miles equalizes the wear, and, if you put your spare in circulation, you automatically get 25% more mileage.

Have you a tire to retread? If you have, bring it in, we are prepared to take care of your needs. Prices range from \$5.75 to \$7.50.

A customer in a hash house told the waiter he wanted a yellow squash. Perplexed, the waiter thought for a moment, then he called out to the cook: "One Jap! Step on him!"
