Furlough Plan For New Selectees to Start on June 15

Second Corps Area and Selective Service in New York State have agreed that the new procedure of granting 14-day furloughs immediately after induction shall go into effect on June 15, according to an announcement by Brigadier General Ames T. Brown, State Director of Selective Service.

Any New York registrants inducted on and after June 15 will come under the new plan. Registrants inducted prior to that date will be granted furloughs at the Reception Center, providing they bring with them letters from two responsible citizens, certifying to the need of the furloughs, and the recommendation of their local board that a furlough be granted. Under present procedure, however, furloughs granted by the Reception Center commander are limited to ten days or less.

Furloughs will be granted automatically under the new plan, General Brown said. After being given the Army physical examination at the Induction Station, those who fail to pass the test will be rejected and will return home. Registrants who pass the examination and are accepted for military service, will be inducted and given their choice of going to the Reception Center without returning home or of being transferred to the Enlisted Reserve with permission to return home on a 14-day furlough. The Army will furnish transportation, meals, and if necessary, lodging of the reservist enroute to the city in which the local board is located and from that point to the Reception Center.

At the end of the 14-day period, the reservists will assemble at a place determined by the local board with which they are registered, and will travel in a group to the Reception Center to which they are ordered. Send-off ceremonies will no longer be held in connection with the departure of men for the Induction Station, but may be held when the reservists depart for the Reception Center.

General Brown stated that with the adoption of the new procedure local boards will not furnish for publication lists of registrants called for induction, but will provide newspapers with lists of the men who have been accepted at the Induction Station and inducted into the Army.

W. C. T. U. Honors Deceased Members

On Sunday, in loving remembrance of those who were devoted and loyal members of the W. C. T. U., but who have gone to their Heavenly Abode, flowers were placed in each of the churches.

There were many others, whom the reader will recall. The writer would especially say a word about Mrs. Addie Coleman who was such a loyal member for so many years. The last place Mrs. Coleman went just before her 99th birthday and shortly before going to her Heavenly Reward was to the home of the writer to a W. C. T. U. picnic.

Mrs. Rose Vincent will be guest speaker, the theme being "Travel Experiences Pertinent to the Work of the W. C. T. U."
