A social hour with musical numbers by several of the members featured the afternoon. Among the members present was Miss Mary White of Wellsville.

The trip to and from the Rennells home was made in the Bostwick bus.

Army Deserter In County Jail

Allegheny County Sheriff F. Vanama Jones and Sgt. C. B. Stanton of the New York State Police this week took into custody a man who didn't like serving in the United States Army.

He is booked as William Quincy Browning, 23, and gave his local address as Scio.

Browning was arrested at his boarding place in Alfred Station following receipt of a message from Francis X. Grottano, Sec. Lieut. Adj., assistant Corps Area Provost Marshall. The youth is charged with desertion.

According to the record he was stationed with the 1550th Service Unit, Military Police Company, at Fort Knox, Ky.

About April 30, Army life apparently began to disagree with Browning. He deserted and spent about a month in Mexico, Mo. From there he went to Chicago for about three weeks, spent some time in Buffalo and Corning and about July 10 blew into Alfred Station. Since that time he has been working on farms, spending a day or two with each employer.

Browning is being held in Allegheny county jail for military authorities.

The office of the county farm agent reports that late potato blight has appeared in this county to a serious extent. Assistant Agricultural Agent Arthur E. Durfee is urging all potato growers to keep their vines well covered with Bordeaux spray, applied every week or ten days. This blight appeared on Long Island about a month ago and its progress has been noted thru Northern Pennsylvania and the Southern Tier of New York until its appearance in fields in Allegheny county.

The enrolled Republican electors of the Town of Andover will meet in Caucus Wednesday evening, August 12, 1942 at 8 o'clock at the Village Hall for the purpose of nominating a Justice of the Peace and Assessor, and the transaction of such other business as may properly come before the meeting.

By order of TOWN COMMITTEE.

NOTICE is hereby given that the Assessors of the Town of Andover have completed their Assessment Roll for the current year; that a copy thereof has been left with the Town Clerk at office, where it may be seen and examined by any person interested therein until the SECOND TUESDAY OF AUGUST NEXT, and that on such day, at 9 o'clock in the forenoon, said Assessors will meet at Village Office in the said Town, to hear and examine all complaints in relation to such assessments, on the application of any person conceiving himself aggrieved thereby.

Dated this 24th day of July, 1942. HARRY G. SMITH, F. S. POTTER, GEORGE H. BAKER, Assessors

Theorophist — "Does your husband believe his soul leaves his body when he sleeps?" Mrs. Tompkins — "I can't say as to that, but he's got a suspicion that his money leaves his pockets."

WANDERING WITH WILLIE

EVERY day the papers carry articles and the radio hears admonitions to get your junk in to the proper channels where it can be converted into war materials, and your old Victrola records in so that the boys in camp can have a new supply of records to play.

In our wandering around we have seen some families with a pile of old records two feet high, half of them cracked all to the dicken and the other half so scratched up and worn that they couldn't play 'em if they wanted to.

Just why do you folks hang on to this stuff? Why can't you pick it up and pile it near the corner of the sidewalk and the first kid that comes along tell him he can have it! That kid will get rid of that "little bit that don't amount to nothin'"—and the Government will have just that much more junk. We have a junk dealer in Andover and he will pick up whatever you have just in case you want that nickel for yourself. But for Pete's sake let loose of it.

If everyone in the good old U. S. A. would just let loose of some of those old tires that many have around a flower bed it would mean much more than to let them rot where they are.

If you folks want to see just what a bunch of children can do, holler at the first one that goes by your door, hand him anything that the junk man will buy (and that's almost anything now), then kind of tip him off that that tight-wad next-door neighbor of yours has quite a bunch of stuff—and the situation will take care of itself.

Or do you want to hang on to all this trash for your grandchildren to fall over and break their little noses?

HAVE you ever tried to straighten this one out:

A fellow asked a girl to marry him and she gave him a decidedly negative reply, so to get even he married her mother. Then his father married the girl. When the fellow married the girl's mother, the girl became his daughter, and his father married his daughter, so he became his son. When his father married the daughter, she became his mother. If his father is his son and his daughter is his mother—who is he?

His mother's mother is his wife and must be his grandmother, and being his grandmother's husband, he must be his own grandfather.

And there you are. Simple isn't it?

CONTINUING from last week in regard to Victory Gardens we sorrowfully announce that another brutal blow by nature landed down on Second Street—Yes in S. George S.'s Victory Garden. As the rain of Tuesday subsided we went down that way and looked at the "best d— garden in ten years of gardening" and found very little vegetation. What makes this particular garden so pathetic is due to the fact that George had staged a comeback after the first flood and had gone down there (on the Q. T.) almost every evening trying to fool Old Mother Nature and bring back to normalcy the water-worried little stems of this-and-that which had not been uprooted.

Well, to make a long story short after all this work on the sly, Fred Smith's garden decided it liked S. G. S.'s better and part of it moved over on George Tuesday. The last we heard he was trying to get bids on the "whole danged thing" the

garden, rocks and water free to the first bidder.

AGAIN those "kids" are up to their old tricks of damaging the grandstand up at the athletic field. It seems too bad with labor and material the way it is that parents couldn't make a point of seeing just what the children are doing when they are at the ball diamond.

Almost as fast as one repair is made the parties interested in seeing that Andover baseball "carries on" find themselves facing the job of fixing up another spot that was damaged over night.

And while we are still on the sub-

ject of baseball—if those chiselers who set in parked cars outside the ball field just to save two bits could only hear what the fellows on the inside (who have paid their quarter) have to say about them, they would meekly put the buggy in a cog, drive it into the garage, shut the garage door and go down cellar and bluish like blazes. We know—we heard 'em (and we know who they were talking about too.)

He — "One kiss from you, Miss Gladys, then I would gladly die."

Miss Gladys — "Yes, I know that story, and afterwards you'll continue to die, time and time again."
