WANDERING WITH WILLIE

WE have been watching a few of the folks about the village getting their junk collected and it's really marvelous how many things they can think an old iron pipe or a hunk of tin can be put to "some day." Perhaps that's why the Government is calling for junk—to see if they can get the attics and back yards, garages, etc., cleared of all the useless articles that some people have been hanging to for the last umpteen years. And it's still junk.

After you get that old baby carriage out of the garage or attic for gosh sake put it on the junk pile—if you're thru with it—but don't let sentimentalism get the better of you just because little "Joe" or "Egbert" took their first ride in it. Those days are past and the carriage may be one that has been stored up so long that little "Egbert" couldn't even get his No. 14 shoe in now.

After you get your useless articles all piled up in a bunch, and you feel like taking one last look at it and paw it all over (and probably carry half of it back) let your will-power go to work and get in the house until the collectors come around. Then take your dough and see if "Jim" Cheesman hasn't got a War Stamp that will just cover what you got from the whole shebang.

WE will bet one thin dime that before "Sailor Don" goes back to the waves there will be a meeting of the local YMPC. Right?

A FEW weeks ago we were getting hit harder than the Japs from right and left (and nobody drawing their punches) by all our friends in the service, but now they must all be in the guard houses and briggs as we are left all alone again to stumble about in our stupidity.

Woe is us!

THERE seems to be about three young fellows in the burg who are trying to get in the spotlight or the cooler by taking corners on two wheels every time they get the old man's car out. As one old timer aptly put it the other night after he got out of the way of one of them, "The d— fools run like that and they haven't even any place to go."

THIS will be the last request of many of us before this little scrap is over and we really begin to learn what that word rationing means:

"Oh when I die, please bury me Neath a ton of sugar, under rubber trees,
Lay me to rest in a new auto machine,
And water my grave with good gasoline."

PERHAPS you've heard the one about a recruit during a dust storm at one of the army camps who sought shelter in the cook's tent. After a moment he remarked to the cook: "If you'd put the lid on that camp kettle you would not get so much dust in the soup."

Cook: "See here, me lad, your business is to serve your country."
Recruit: "Yes, but not to eat it."

Reason for Refusal
Clerk: "I'm afraid I can't let you have that drug, sir."
Customer: "Why not? Do I look

like a man who would kill himself?"
Clerk: "Well, I wouldn't go so far as that, sir; but if I looked like you I should be tempted."
