WANDERING WITH WILLIE

LAST week we were more than surprised to hear that the little bit of baloney in this column had hit the bull's eye (especially up in the mill). According to street gossip, one loom-fixer actually grinned on reading it, two weavers smirked and another worker really broke right out and giggled. Boy we am a success!

But while we are handing out a little foolishness we ran across the following this week about those 10,000 New York "woikers" that Henry Kaiser took to Portland. It must be a devil of a mess out there, mixing the real New York brogue with that slow Western drawl. Just as an example you can imagine how far a Westerner would get reciting this New York paragraph fast. (You try it as after reading it and writing it out our tongue is still glued to our tonsils:

Thoity poiple oily boids were sitting on the coib at Thoity Thoid and Boinside eating doity woims. A goil named Goity and her boy friend, Hoibert, saw the thoity oily boids sitting on the coib eating doity woims at Thoity Thoid and Boinside and Goity says "Hoib! The noive of them boids!" Boy! Were Hoib and Goity poitoibed!

THE daylight air raid test Wednesday proved most successful, with but one minor violation. That was promptly taken care of by Eddie Kibane when he gave a ticket to an autoist who left his buggy in front of the bus H. Q. We know what color that ticket was too, don't we Andy?

THERE'S still more junk lying around that has not been reported in as yet. Not so long ago a Government gent was in Andover and put the screws on a few of these junk hoarders. And he knows how to do it too. Want him to drop in and see you folks?

WE want to compliment the Boy Scouts of Andover on their fine display in the Atwood block window but as usual we have to criticize a bit. When we glanced at the Scout standing there in the window so nonchalantly, to see what Andover Scout he resembled, we were shocked to note that his complexion was more Japanese than the good old Allegany hue. Would it be a very big project to bleach him a bit?

ANOTHER of those special bulletins was picked up this week and handed to us. It comes from Washington and states that the Japs last week had taken Castoria. Latest reports today are to the fact that they are evacuating.

AND then there's the story of the fellow who had been out with

one of the boys who was going to camp and after seeing his buddy well on the road to active service he staggered home and made his way subconsciously thru his house, winding up in the stall shower of his bathroom. As he groped around (as stew do) he turned on the water deluging himself aplenty and making a whale of a racket which naturally brought the Little Woman to the scene. Taking in the details she called him all kinds of so-an-so, winding up with a none too flattering estimate of his past, present and future.

"That's right, Honey," admitted the befogged celebrator. "I'm everything you said—and worse.—But let me in, won't you, Honey? It's raining like h— out here."

W.C.T.U. NEWS

It is the opinion of the writer of this report that no woman can do a more patriotic act than to become a lively member of the Women's Christian Temperance Union, an organization that has the moral and spiritual welfare of the youth of our land at heart.

I question whether there is a more lively organization, or one doing any more worthwhile things (in proportion to its membership,) in Andover than the local W. C. T. U.
