What You Buy With WAR BONDS

Gas masks which came into use in warfare for the first time when the Germans used poison and mustard gas in World War I, are much improved today over those used then. The Chemical Warfare Branch of the War Department issues these gas masks to every man in the service. We are taking no chances.

The type pictured here is the "can" and "elephant nose" mask and costs about \$9.25 each. The headgear is transparent, made of material resembling cellophane and does not cloud with the breath. You can buy two of these gas masks with the purchase of an \$18.75 War Bond. We need thousands of them. Don't fail to give at least ten percent of your income every pay day for War Bonds. Buy them at your bank or postoffice, regularly.
