His age was a little two-year-old son.

James F. Brooks of Hornellsville was in town the latter part of last week. Mr. Brooks was formerly a resident of Andover and there are some prospects of his returning here this spring. John Prest has bought from W. H. Church the lot upon which the News office stands, corner of Main and Elm streets. Mr. Prest will erect a handsome block of three business places on the lot the coming season. And so the

town grows.

### 40 YEARS AGO

FEB. 5, 1904

· J. H. Backus, Editor & Publisher One of those startling calamities that shock a whole community occurred Monday. Albert Mc-Carn, well known as a dealer of small merchandise, Monday morning started on one of his usual! trips to Scio. While engaged in business he suffered a stroke of apoplexy, falling in the street. He expired shortly after in the home to which he was taken. He leaves a wife and sister.

In response to the advertisement seeking volunteers for the standing army, Elmer Kemp and Walter Calhoun were examined at Hornellsville. Passing the examination, they enlisted for three years service and expect to enter the Army within the next few weeks.

D. W. Rothensies, assistant supreme organizer, of Jamestown was in Andover Monday evening; and organized an Order of the Golden Seal here with 40 charter members.

The transfer of the property of the Rundell Manufactury to the Andover Stamping Company was made Tuesday of this week and the new company are now doing business.

The News has received word that Arling R. Baker has a position as principal of a graded school at Bentley Creek, Pa., and has commenced his duties there.

# WHO MAKE THE H.12e

Long hours . . . shortage of materials . . . lack of manpower... have not prevented the men of Erie and other American Railroads from solving the greatest transportation problem in all history.

And full credit should be given railroad men for their fine spirit of cooperation—their loyalty their willingness to see the job through.

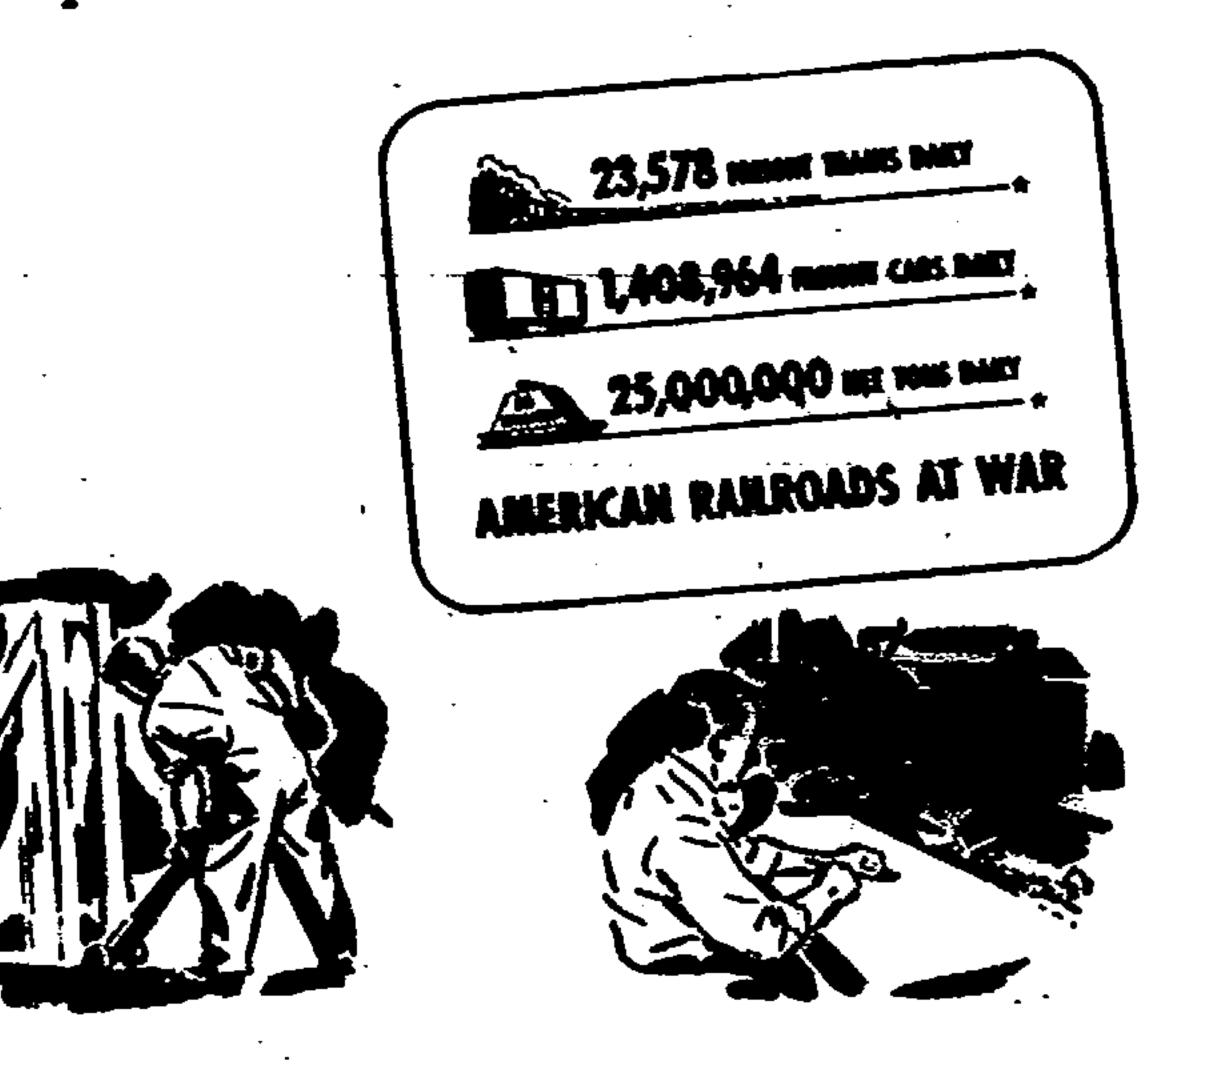

For it is these qualities in its men that made it possible for Erie to establish a new all-time record of 15 billion ton-miles last year, an increase of 26.4% over 1942 and 40% over 1941.

It is these qualties that enabled Erie to reach a new high record of average daily movement of freight cars.

It is these qualities that give good service to shippers and travelers at times when demands for transportation reach unprecedented new heights.

And these men will continue to give America the world's finest and most economical transportation in war or peace.

It is the men who make the Erie.
