# STRIPPEN FOR ACTION?

The zero hour all over the world. The big push we've waited for so long.

This is the time for belts to be worn tighter. For pockets to be scraped. For every last American to wring more dollars out of himself than he thought he could spare!

The U. S. Treasury needs \$16,000,000,000 right now! \$6,000,000,000 from individuals alone. That's more than \$100 in cash from every wageearning person in the country! We're going to have to double what we did

Just to show you the seriousness of this drive, our Government says—it's probably the biggest effort we'll ever be called upon to make!

Don't fail the boys who've got the dirtiest, bloodiest fighting still ahead of 'em.

## Fifth War Loan Drive Off to Slow Start In Andover

The Fifth War Loan Drive is off to a slow start in Andover with only \$9,000 sold against a of \$55,000 Wednesday

A cash quota of \$55,000 for Andover is a lot of money and there is a big job to be done. The fonly way it can be done is by levery man and woman in the township, village and farm people I alike, buying all the Bonds they can. Andover hasn't failed yet and it won't this time

if everyone does their part. The men running this war have told us again and again that victory is likely to come slow, at bitter cost and attended by heartbreaks all the way. We must take the bad with the good and never let up.

Remember, we are backing an invasion now which is off to a I good start and we certainly can't let our fighting men down. According to the War Department your Bond dollars will buy more and better equipment now than ever before.

A heavy bomber, which a year ago cost \$500,000, today costs half that much. A Bofors Antiaircraft gun formerly cost \$25,-000 now costs only \$13,000. A year ago the Garand rifle cost \$80. Today it costs \$35.

Stop in at the bank or the postoffice today and lend the war effort all you can to hasten the day when our fighting forces can
