lan effort to conserve fuel and

1,000 telephone poles a day

VERY 48 hours, the U. S. Signal Corps uses enough poles to string a single telephone line from New York to Philadelphiathat's at the rate of more than 1000 a day-377,000 in a year.

Most of these telephone poles are required in conquered territory to establish communication lines to the battlefronts. And every one of these poles must be delivered to the Signal Corps from this country.

Telephone poles are just one of the more than 96,000 items Erie and other American Railroads must carry for this one branch of the Army.

As more troops go into action, the day by day need for transporting vital supplies and equipment to the front grows greater and greater.

But your railroads will get the job done with the help of the public, shippers, and government agencies. In war, as in peace, you can count on your railroads to deliver the goods

1 HIS is Invasion! Now in the hearts, brains and muscles of our American Youth lies the future of our country.

Bow your heads. Pray with millions of mothers the country over, as their hearts reach out over the seas, each one seeking out her boy, to protect him with the shield of her love.

Believe that in this world there is definite strength in decency and honor,

Believe that in our devotion there is moral force. Believe that our will to victory will aid that victory.

Seek and ye shall find!

Let us seek added strength and fortitude for our men in our own sacrifice and devotion.

Let us focus every thought, every action, and every prayer on the boys fighting for us.

And, while each one bends to his task with ever-growing fervor and energy, let us adopt a common symbol as our faith in Victory.

Let that Symbol be War Bonds. Let us pour our money in a gigantic flood of goodwill toward our sons and brothers, as a spiritual shield for them.

This is the Invasion. The lives of our boys are at stake. Let them see that the Soul of America is with them.

Let it not be too late... not next month, next week, or tomorrow, but today ... now.
