### Andover Central School to Open September 5th

The Andover Central School will open in all departments for the new school year Tuesday morning, September 5, according to action taken at Monday night's meeting of the Board of Educa-

Altho originally scheduled to open a week earlier to permit time off for potato harvesting, Principal Glenn E. Bretsch reported that harvesting time could still be given by shortening some of the regular vacation periods.

In regard to the infantile paralysis epidemic, Dr. S. B. Scott reported that the State Health Department approved the opening of schools as usual, unless local conditions made such opening inadvisable. "Experience has shown" said Dr. Scott, "that little is to be gained in the control of epidemics, by closing schools." However, he\_did\_state\_that\_the keeping of children away from unsupervised groups was still a necessary precaution.

On Tuesday and Wednesday pupils will come for the forencon sessions only. It is important that all pupils report for registration the first day. High school pupils 16 years of age or over who are working must start the school year not later than Mon-
