WE invite you to open a bank account, and urge those who have one to improve it.

Resolve to do this:

To resolve is to make up the mind to a course of conduct or action.

Too many people wait until the beginning of each New Year to make resolutions.

Those who wait for that time to turn over a new leaf seldom come through with their program of reform.

The time to make and keep resolutions is the present time.

Resolutions should be respected and not made merely to be broken.
