WE invite you to open a bank account, and urge those who have one to improve it.

Resolve to do this:

To resolve is to make up the mind to a course of conduct or action.

Too many people wait until the beginning of each New Year to make resolutions.

Those who wait for that time to turn over a new leaf seldom come through with their program of reform.

The time to make and keep resolutions is the present time.

Resolutions should be respected and not made merely to be broken.

Andover Central School to Open Monday

Following a four-week shutdown because of the prevalence of infantile paralysis in neighboring communities, Andover Central School, along with other area schools, will open next Monday, October 2. High school pupils will report Friday morning for registration and schedule planning. This will be but a half-day session, but full sessions will start Monday, unless otherwise an-

The members of the faculty have been on duty all of this week, making plans for the opening of school and having professional meetings and conferences concerning means of best making up the serious loss of time occasioned by the late opening. It was agreed that regularity of attendance and determined effort would be the most important factors in determining whether pupils will be able to complete their year's work this school year.

On Monday the faculty met with Health Officer Dr. S. B. Scott and the school physician, Dr. H. J. Leahy, for a discussion of suggested measures for the prevention of polio in the school. All children will be carefully watched for any symptoms of illness of any kind and such cases imme-
