Exams Coming Up to high school.

The January Exam schedule has been posted on the bulletin boards of the office, library and homerooms. Many passers-by have sighed as they gazed, none too fondly, upon it. I heard one memaking A. student remark: "Gosh it just TUESDAY: P. M.doesn't stem that half the year has passed by!" and her remark made me realize how short this first half of the term-has been.

The summer vacation was prolonged because of the epidemic of polio. We lost nearly a month of school time. Thanksgiving and Christmas vacations seemed to swoop upon us almost immediately after school began. Another two and a half weeks lost, Winter, too, seemed against us as "He" drifted and iced our roads to impassability, January 2nd and 3rd and then again last Heavy snow and ice has

buses late and school has waited several morning for bus purils until as late as 9:30.

riuc! The lady was right! A half year of actual school time THURSDAY: A. M .-has not yet passed us and although we are running 8th period classes we have not finished the work we should have accomplished. Yet, exams are next week and we must pass them. We must more than just pass them, we must obtain good THURSDAY: P. M. marks, for the honor of our! school, our teachers and ourselves.

I feel justified in saying that every pupil in A. C. S. should "cram" a bit for this one oc-FRIDAY: A. M. casion. We have all tried our best but we must do better. If it is "craming" to study every night until exams; then I ask you to "cram." This year we must drop the idea that "craming" is for the lazy pupils an re-do all our class work. Step by step we must go over everything we should know because we have Who Are They? worked fast and our studies may not have "soaked in." A thorough review of every subject! Hair: Dark brown. you are taking will bring A. C. S. January exam marks to the top. Is this, we ask of ACS students too much? Is it too much to overcome the time obstacles and

pass those exams next week? say it is NOT! It is merely a challenge to see if you can do it, a challenge to

you-yourself. For it is for your benefit and your own prestige. Come on, ACS, let's all come thru with flying colors next week If only to prove that we can do it. Are you willing to try?

Come On, Worms! Let's Wiggle!

All you happy peoples will be much happier if you'll don your plaid skirts and bow ties and leave your frame at the ACS Au- tails. ditorium tomorrow night, Friday, January 19, for the round and square dance sponsored by the Her pleasing personality.

Seniors. We have been waiting for this or Clara and Sue. hoe down for a lang time, so need | Answer to last week: Bob Bak-By more!
