Question 3. Is there such a thing as a vampire bat? Does it prey on humans?

ANSWER. Yes, there are vampire bats and they are so named because of their bloodsucking habits. The guilty ones are small bats, about three inches long, and occur only in the forests of tropical America, from southern Mexico to southern Bra-

They are covered with reddishbrown fur and like most other anniversary. A very pleasant That Florence S. Earley is the bats are active only at night.
