Teeth Give You Away

"Teeth don't show the heart." That is a Martinique native's way of saying that a bright smile doesn't Arove what's going on inside. Scientists disagree. They say that when your smile reveals bright, sparkling teeth it certainly indicates that you've been getting the tooth-building vitamins and minerals daily, because dental health is impossible without them. At least three vitamins (A, D and C) of the six known to be essential vitamins have a direct bearing on the teeth and gums. And the three essential minerals-Calcium, Phosphorus and Iron-are vitally needed for a flashing smile.

Portugal's Imports

The things lacking from Portugal's domestic larder are indicated by the items of food imports-wheat, corn, rice, sugar, coffee and dried cod. Other wants include raw cotton and dyes. Wheat yields have been mov ing toward satisfaction of home needs. New and improved roads whetted interest in motor cars, and "petrol" (gasoline to Americans) appeared among the imports. Great Britain, traditional friend, has long ranked first in foreign trade. Next in order have been Germany, the United States, Belgium and France. War is changing old positions.
