BILL LANG, Mgr.

In our mail last Monday morning we received five letters.

Baker's Hardware New

Their contents were so typical of the inconsistent way of doing business we thought our customers would like to know their messages:

> No. 1:--We are sorry but we can ship no more barn equipment until further notice.

> No. 2:-Sorry to inform you that we have been compelled to discontinue building Farm Type Fanning Mills.

No. 3:--On our records we do not find that you bought any Pump Jacks from us in 1941, hence you have no quota with us.

No. 4:--Sorry we are unable to make shipment now of your order of September 1944 for Wall Paper. Your order will come in small lots from time to time as it becomes available.

No. 5:-NOW is the time for baseball uniforms. We have available NOW for the manufacture of the finest types of lettering and emblems on bowling shirts-sportswear, etc. We can give ten days delivery. We guarantee our work for color and fastness. Samples and prices on request.

You see how it is, shortages of farm machinery, delays for the materials to re-decorate your home, but no shortages of delays in this line of sporting goods.

If we cannot supply your everyday needs it is not because we have not tried.

Many of the most critical needs of the farmer are not available.

You probably wonder, as we do, what kind | Tract, Feb. 25. Two nieces sur-

The letters referred to above are on file in our office and may be mapected any time by anyone.

R. Baker, Andover.
