The meeting be left to a daughter-in-law, later. Used as directed, an application of BARN SPRAY contains 2½% DDI. That is the Sell that article thru the classi-amount now recommended by the U.S. Department of Agriculture for a water-dispersible DDT surface spray for flies.

FOR RANGE ANIMALS:

BARN SPRAY (in greater dilutions than for buildings, see label) can be used on range animals, dry cows, calves, heifers. Used as directed an application contains .4% DDT. Trials indicate this amount is ample.

FOR MILKING ANIMALS:

DDT is too slow for milking time fly protection. You need quick knock-down and kill. That is why Dr. Hess Livestock FLY SPRAY. Concentrate contains Thanite, the fastest fly killer

Livestock FLY SPRAY Concentrate also contains DDT for residual fly killing effect in the pasture. Cows bring fewer flies into the barn, hence number of sprayings necessary is lessened.
