HIGHWAY SAFETY

HIGHWAY safety in the United States has taken big strides forward in the last 12 months, but there still remains a tremendous, nation-wide job of call the guy's bluff. traffic law enforcement, safety education and engineering before conditions can be considered notably

The Action Program adopted in May 1946 by the President's Highway Safety Conference and distributed thruout the country as a pattern for reductributed thruout the country as a pattern for reduced june 6: To Mr. and Mrs. Don-sister survive. ing traffic death frequency, has been utilized in ald Mills, Fillmore, a daughter. Mrs. Florence whole or part by many states and communities, but June 8: To Mr. and Mrs. Ray uniformity and standardization still are lacking in Lamb, Belmont, a son. large sections of the country.

to which recommendations of the Action Program ter. have been adopted and the reports were studied and June 5: To Mr. and Mrs. Clair Social Security Data evaluated by a group of conference experts.

The summary shows little progress in improv-thur Comstock, Belmont, a son. With many high school pupils ing motor vehicle administration thruout the country during the last year, althout wo of the three states daughter.
