Public opinion strongly urges driver training in the schools. A recent survey made by the National Committee for Traffic Safety showed 78 per cent of the people endorse such a program. A majority of these want the training carried to actual behind-the-wheel instruction.

At a meeting of the PTA last fall, members requested that a committee be appointed to investigate age, contrasts with heavy producthe possibilities of adding a driver course to the cur-tion of sweet corn, while other riculum at a central school. The committee was vegetables are widely variable. named, made their investigation and reported and the matter was dropped. When the members of the PTA made that request there was ample time to institute the course to begin this fall. Now, if it is done, it will have to wait another year.

Let our educators heed the facts. Let them answer to the public demand, with, of course, public! support. Posterity will most certainly condemn this generation if we fail to prepare the youth of today I feller they call a cutter. That
