Effective July 17, 1947, the following rule

RESTRICTING NEW GAS SPACE HEATING

was adopted:

Gas service will not be supplied for NEW OR ADDITIONAL SPACE HEATING purposes to premises having facilities for the utilization of other types of fuel or to newly constructed premises except where the customer has purchased and has commenced the installation of heating equipment designed exclusively for gas fuel prior to the effective date hereof.

Whenever the facts establish with reasonable certainty that a customer hereafter has connected new or additional gas heating equipment, the company will discontinue all service to such customer upon such notice as is or may be required by law until the new or additional gas heating equipment has been disconnected.

This restriction shall remain in effect until MAY 1, 1948 unless such date is changed prior thereto.

"Effective July 17, 1947, under authority of Public Service Commission, State of New York, Special Order No. G623, made July 16, 1947."

Please note that these restrictions will be in effect until May 1, 1948.

These restrictions are identical with those recently adopted by all Gas Utilities in Western New York and approved by the Public Service Commission.

We shall be glad to answer any questions you may have regarding this rule.
