EVER WATCH A PHARMACI FILL A PRESCRIPTION?

Each drug the pharmacist uses was produced by a responsible ceutical or chemical company in which he has implicit confident knows that every medicinal substance on the shelves of his Dre room has been subjected to strict tests and analyses to insure it quality, and strength. He would use no drug which hadn't been Even with this knowledge, however, the pharmacist fills ev

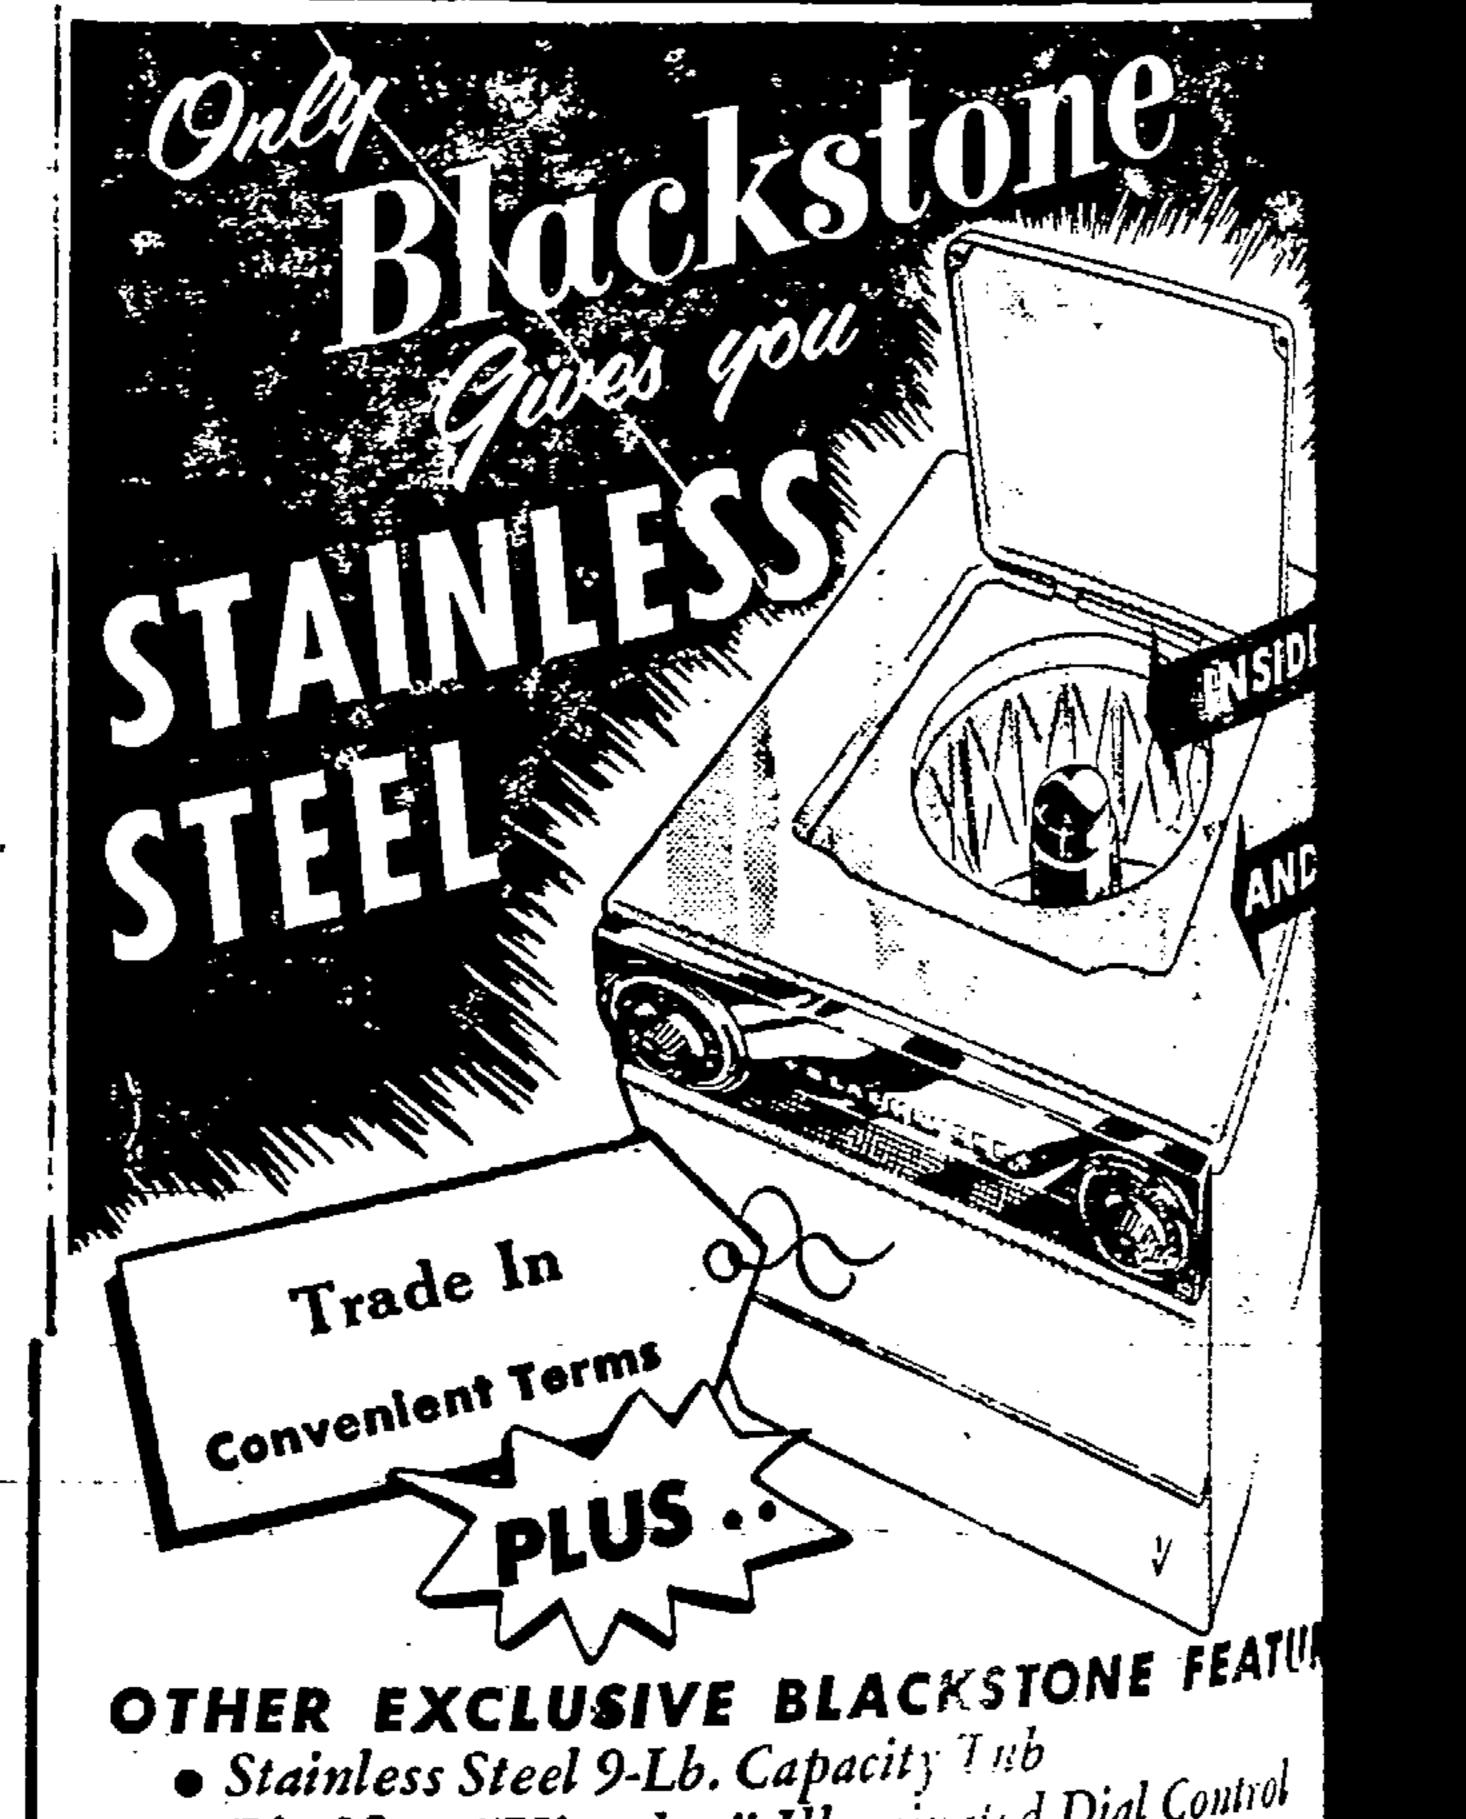

scription with a deep sense of personal responsibility. He che rechecks every ingredient he uses and every step in his comp technic. He examines the contents of each bottle carefully as it from the shelf. He looks at it critically, he may take the store and smell it, he may even taste a bit of it. He fills every pro with the exacting care he would exercise if the medicine we member of his own family.

The drugs he uses are old friends to your pharmacist. He m first in his early days at college and he has worked with them de since. Their color, texture, odor, and taste are closely associate mind with their actions and their uses.

It is second nature for the pharmacht to check drugs by taste, and by smell. His knowledge and training are as much the prescription he fills as are any of its ingred was -Retailed copyrighted advertisement published by Parke, Davis & Company, D
