Vote For The New School by Joyce Day

Ferhaps the most controversial subject in Andover today is the subject of the "new school". Though opinions vary, I feel, as do most of the students, that re-

modeling is a necessity. Few will disagree that a larger cafeteria is one of the most desirable aspects of the new plans. Our present cafeteria, though not seriously crowded, is nevertheless a bit cramped during the noon hour, and with our growing school this could be a serious problem in

the future. Another good feature of the new school would be the location of the kindergarten room. At present, one of the kindergarten rooms is located upstairs with the higher grades. This poses a problem-between classes, when both kindergarten and high school students are apt to be using the halls and stairway. This confusion would be eliminated if the kindergarten were placed downstairs as proposed in the new plans.

Not only does Andover Central need to be remodeled, but it deserves it. Compare the building and remodeling of other schools in the county with that of Andover which has had no extensive remodeling since the present school was built. Certainly our every few years, as have some other schools.

Yes, Andover Central needs to be remodeled and enlarged. The proposed plans are both practical and economical. Vote For Them!
