VOL. XVIII

April by Joyce Day

"Wild flush the fields, the softening air is balm. Echo the mountains round; the farest smiles; and every sense, and every heart is jov." It's Spring again, April, and soon the flowers and rain common to this month will be here. The word April is derived from the Latin word "aperire" which means "to open", and this month was so named because it is the season when the buds begin to onen. The Dutch called it grass month, and it was called Easter ——month by the Anglo-Saxons.

We are all familiar with the various customs, connected with Easter such as the coloring of eggs and the appearance of the <u> Easter bunny. But perhaps w-</u> are ignorant of the fact that they actually have mo connection with the celebration of Easter. The Easter bunny is the symbol of the tentanic goddnes of spring, and the Easter eggs were originally painted in her honor to represent Total the sunlight of spring.

However, Easter has a deeper, spiritual meaning, familiar to all of us. The fact that Jesus Christ died for your sins and mine should by the primary Easter theme.

There is an interesting oriental custom which beautifully pictures this. When a large debt was finally paid, it was the custom of the creditor to take the canceled bond and nail it over the door of the one who had owed it. All who passed by could then see that the former debtor had been completely freed from all claims.

A bankrupt world lay in hopeless debt to God, but Jesus, paying the price for us, took our sins and nailed them to His Cross. It remains for us to accept this fact and yield our lives to Him. 'I am the resurrection and the life: he that believeth in me, though he were dead, yet shall he

John 11:25 Thoughts While

Shoveling Snow Congratulations to the newly elected members of National Honor Society. Keep up the the good work! The juniors did a pretty good job on their play, don't you It's convertible weather again and doesn't there seem to be a lot of them around Andover? The seniors are really getting prepared for their trip, aren't they.

Congrats to "Doc" Whiting on his award at the Science Fair as well as the other boys (John Common, Robert McClure and Lloyd Hollenbeck) who entered.

There are 74 girls, 71 boys in high school. Who are those three extra girls? help? The seniors have really been working on their thesis, haven't they? Lights have been on in the typing room late at night.

And speaking of seniors what about those engagement rings everyone seems to be wearing? That was a swell party you tossed after the play, Joan, but where did all the boys go afterwards? Who is going to be the first girl in A.C.S. to turn up in a chemise or "sack" dress? Cheer up, boys, they shouldn't last long.

Have you heard the morbid jokes that seem to be the lastest rage? I suppose they-re to go along with those hit songs, "Dinner with Drac" and "Screaming at Dracula Hall". Snow's melting too fast to shovel now. So
