Allegheny County Deaneery Officers Meet

The Allegheny County Deaneery Officers of the Buffalo Council of Catholic Men met at St. Patrick's Hall in Belfast Monday night. The meeting was conducted by President James Slavin of Wellsville, and County Moderator Father LaRusch of Belfast. All county officers and committeemen were present.

The men were advised that a Day of Recollection was planned in Wellsville sponsored by the K of C in late January or early February. All the men from the county were invited.

Father LaRusch told of the Mission to be held at St. Patrick's in Belfast beginning Sunday, Feb. 17th at 8 P.M. ending Saturday A. M. It was tentatively planned by the moderator Father LaRusch and the committee to hold a May Day Rally in Belfast.

Men were reminded of the annual Retreat at Christ the King Seminary the last week-end in July.

The committee, also, planned a Day of Recollection some time in October.

Father LaRusch and President Slavin expressed satisfaction at the vigor which the members were showing—and that plans and patience in the work will bring many Spiritual Blessings.

The next Officer and Committee Meeting will be held in Belfast February 4, 1963 at 7:45 p. m. Many plan to attend the N.C.C.M. conference in Buffalo Sunday

Hi Herald Continued

Arkport on Sunday and helped her grandfather celebrate his birthday. Yvonne Mattison spent Sunday at her grandparents and went tobogganing. James MacMichael went ice skating at Maple City Park in Hornell. David Baker visited the Mulconerys. Thomas Wallace enjoyed sliding at his Uncle Lynn Ford's. Dawn Burrows is enjoying helping with the care of her new baby sister. Donald Sisson, Thomas Wallace, James MacMichael and Sharon Lewis went skating in Wellsville on Friday night. Polly Ford entertained her grandparents for dinner. Several of the children in our room are enjoying the ice skating on the Andover Pond.

Grade Five, Miss Jordan—We would like to thank Gindy Preston's mother for the nice Christmas Cookies which she sent to us when we had our Christmas party. We were glad that Tom Polmateer could come long enough to enjoy the tree with us. Tom has been absent for quite a long time because of illness.

Grade Six, Mrs. Schwarzenbarth Richard Godown was in Coudersport, Pa., Sunday. He also watched the skiing at Denton Hill. Judy Howland reports a fine vacation in Florida. They saw a water show at Cypress Gardens. They had a picnic dinner in a park on Christmas Day. The leaves are coming back on the fruit tree to replace the icicles.

Grade Six, Mr. Wilcox—Sam Clarke was twelve years old on January 14th. Tom Dixon journeyed to Mount Morris. John Parttridge is making a collection of animal tails. Jackie Miller collects tin foil and Tom Dixon painted model cars. Danny Grant has a new cousin.

STRENGTHEN AMERICA'S FENCE POWER

Small crops of pecans, filberts, and almonds are expected this year. Price estimates may increase about 50 per cent.

Notice To Owners And Harborers Of Dogs

Dog licenses for 1962 expired on December 31, 1962. The 1963 license fee was due January 1st. Licenses so issued will cover the period from January to December 31, 1963. Every dog must wear a tag of the current dog license year. A dog without such a tag is not protected by law and no action can be maintained for his injury or destruction.

An unlicensed dog, must be seized and killed and the fact that a dog is without a tag is presumptive evidence that the dog is unlicensed.

Dog licenses must be obtained from the clerk of the city or town where the dog is harbored or kept.

License fees: Male Dog, \$2.25; Female Dog, \$5.25; Spayed Female Dog, \$2.25.

No license can be issued for less than the full license year.

The owner of a dog, who fails or refuses to obtain a license for the dog as required by law incurs a penalty of \$10.00 and costs.

The enumerators of towns and the police department of cities are required to prepare in January of each year a list of dog owners. The omission of the name of an owner from such lists will not excuse the owner from obtaining a license.

If you owned a dog last year and do not own one now, so advise the clerk of your town or city.

Dog licenses in the Town of Andover may be obtained from Mrs. Glenora Pelton, Town Clerk.

HEALTH FOR ALL

This column is sponsored in the interest of better health, by the Allegheny Health & Tuberculosis Association, 44 Schuyler St., Belmont, N. Y.

STILL A THREAT

Deaths from smallpox, typhoid, diphtheria, tetanus — surely these are things that we should not hear tragic reports of illness and death from these diseases. Tuberculosis, too, which some people wrongly consider under control and no longer a threat, continues to wait silently for the opportune time to strike its next victim. Each year, tuberculosis takes more than 10,000 lives and claims 55,000 new victims. Today in the United States alone, there are between 30 and 40 million people with TB germs in their bodies. Over two million of them have actually been ill with the disease. Two million more of them will break down with the disease sometime during their lives.

Tuberculosis is caused by a germ that can be easily spread from one person to another. A person with active tuberculosis sneezes or coughs and sends the germs into the air. The germ goes everywhere, can infect anyone, at any age. More city people get tuberculosis than country dwellers. Overcrowding, poor housing, improper diet—these are the living conditions under which TB flourishes. But the well-fed, and well housed get TB too. So do suburbanites and country folk. As long as there are people walking around with active TB and not being treated, nobody is safe.

Today we have an effective drug treatment for TB. The disease could be wiped out if every active case could be found and treated.

The tuberculin test signals the presence of TB germs. But infection doesn't mean active disease. That can be found only through chest X-rays and laboratory tests. Since anyone can have active TB and not know it, it's smart to get a tuberculin test every year, and if the test is positive, a chest X-ray.

An artificial heart is being tested in the chest cavities of animals at the Cleveland Clinic. External air pressure actuates a double-end cylinder which pumps blood from the heart chamber. This piston-type heart is said to offer important advantages over designs currently being evaluated.
