—Mrs. Edward Duggan of Rochester spent Sunday with her parents, Mr. and Mrs. George Sackett. Mrs. Frank Holmes accompanied her granddaughter to West Henrietta where she is spending the week with her daughter and husband, Mr. and Mrs. Gordon Cartwright.

**Diversion Programs Getting Results**

Farmer participation in the 1961 and 1962 feed grain programs is bringing about a one-third reduction in feed grain stocks, Stephen Clarke, Chairman, Agricultural Stabilization and Conservation Allegany County Committee, reports. By next October 1, feed grain stocks are expected to be about 28 million tons below the 84.7 million-ton level of October 1, 1961, he declared. Wheat stocks will be down about 100 million bushels next July 1 as a result of participation in the 1962 Wheat Stabilization program.

The chairman cited these solid achievements in bringing production into line with needs through the diversion of wheat and feed grain acreage to conserving uses.

By participating in the diversion programs, the farmer earns a diversion payment and a price-support payment, and he also qualifies for a regular price-support loan or purchase agreement on his crop.

The signup period for 1963 crop corn, and barley under the voluntary Feed Grain Program has been set for February 1 through March 22, 1963.

"We Hope," Mr. Clarke said, "that between now and the time for filing program applications, farmers will get all the facts about the diversion program, and then plan their 1963-crop production around the program. This 1963 program provides a means of making further progress toward solving our problems of surplus stocks and low farm income."

Price support on 1963-crop corn, and barley will be available only to producers taking part in the 1963 Feed Grain Program. Wheat farmers who do not sign up to participate in the 1963 Wheat Stabilization Program may qualify

for Price-Support Loans or Purchase Agreements (but not for Price-Support Payments) by complying with their farm Wheat acreage allotments.

The price-support payments are a new feature of the 1963 Diversion Programs. They will be made on the normal production of the 1963 Feed Grain or Wheat acreage, as the case may be, regardless of the farm's actual yield and

also without regard to whether the crop is fed, marketed, or placed under price support.

**Card Of Thanks**

The Family of Robert E. Dean deeply appreciate the many acts of kindness and thoughtful expressions of sympathy at the time of their bereavement, also they are especially grateful for the cards and floral offerings.

**Don't Let the Machine Catch You!**

Some months ago, the government opened a new data processing center in West Virginia—the first of a series of such centers to be located across the nation. With them, the government will be able to check every federal income tax return in the country automatically.

If anything looks fishy, the giant computers will toss out a return for additional checking.

All of which means that your tax return had better be accurate—right down to such things as drug deductions.

It can be, when you purchase from us, because all of our customers receive absolutely free of charge our special DrugTax service.

When you buy from us, all of your purchases are recorded on "memory" tapes, which are later fed into giant electronic computers. At the end of the year, we send you a DrugTax statement which tells you how much you spent for drugs of a deductible nature.

No-guesswork. No cost to you. You may actually save money—because you get the benefit of every single drug deduction to which you are entitled.

(You might be surprised at how many things are of a deductible nature—and you might be surprised, too, at how many millions of dollars the American taxpayer loses each year because he doesn't claim them).

Come in today and take advantage of our free DrugTax service. It's our way of saying "thank you" for your patronage.
