Bargaining Agency Requests Changes

Syracuse—The Metropolitan Cooperative Milk Producers Bargaining Agency announced today it would request major changes in the Philadelphia, Pa., marketing order during a hearing which is now underway there. An Agency spokesman said it has evidence the present Philadelphia arrangement is having a serious price-depressing effect on producer prices in the New York-New Jersey order due to an influx of surplus milk from Philadelphia.

Because of this movement between orders, Agency Manager Forsythe said, the New York-New Jersey price has been decreased an estimated 5 cents per hundred pounds, while Philadelphia producers continue to receive higher price levels.

Forsythe emphasized that "The primary objective of our organization and the basic reason for its creation and continued existence is to promote and protect the interests of the members of our New York order cooperatives including members of Inter-State Milk Producers of Philadelphia who are under the New York-New Jersey order and, in fact, all New York-New Jersey order producers by attempting to bring about stability and orderly marketing under the federal order system of regulation."

Thank You

I wish to thank my friends and neighbors who were so kind to remember me while I was ill. Also for the lovely birthday cards and boxes of fruit and goodies which were sent to me on my birthday. Again I thank you very kindly.
Mrs. Lina Ruger
