

ARE YOU PLANNING A TRIP OR VACATION?

An Editorial

Do you want a carefree trip or vacation? Is there such a thing? Maybe not completely, but if you plan a family trip or vacation IN ADVANCE—it should come close to being carefree!

Part of the fun in taking a trip is in planning it—The excitement in anticipating where you will go, what you will see, what you will do and who you would really like to visit or call on.

If anyone—friends, relatives, or neighbors—tells you that the best family trip they ever made was impromptu and unplanned, don't believe it.

More than likely they forgot to tell you that they did make a few advance preparations—otherwise, they just couldn't have had such a good time. Then too, if you should remind them about the things they did to get ready, nine time out of ten they will say, "Oh, but those were just routine."

That's right—Routine details—but So Important! They aren't very numerous, and most of them are taken for granted—but rather than turn back after traveling 50 miles because you forgot to put the windows down or arrange to have the family pet taken care of—look over these reminders—make a list—and then check them off before you get the family in the car.

What to take? Clothes—Be sure to find out just what kind of clothes you will need where you are going—and take just what is necessary. (We usually end up taking about three times as many clothes as are necessary and then have them cleaned when we get home as well as worry about having them stolen out of the car during the trip.)

Always take broken-in, comfortable walking shoes, plenty of bathing suits, etc.—and don't forget the sunglasses and your favorite suntan lotion.

Sports equipment—tennis rackets, golf clubs, baseball equipment, fishing equipment, etc., can be used again and again and it is expensive to have to buy or rent duplicates.

Personal Equipment—Is any member of your family miserable without glasses, dentures, arch supports, braces, or something else that is hard to get on the spur of the moment? Be sure to take a duplicate of any article which may be easily broken or lost if at all possible.

Medicines and Prescriptions—If possible, it's a good idea to take along sufficient medicines to last the whole trip, but as an extra precaution, have your doctor write clearly your prescription and its use. If you should require special treatment, have him type instructions which you can give to another doctor in case of an emergency.

Identification — Be sure to carry identification papers regardless of mode of travel! If driving—don't forget your driver's license, car registration, and insurance records as well as your owner's certificate. It's also advisable to carry a card in your wallet with your blood type, and any other special information—such as an allergy to anti-biotics or susceptibility to sugar diabetes, etc.

On leaving your home—Check the water—some prefer to shut it off, but in any event make sure the faucets are at least all shut off. Electricity—make sure the plug is pulled out on any appliances that don't have to be kept running such as the TV set, toaster, etc., and make sure that the plug is really in good on your deep freezer. Gas—make sure everything is shut off completely, including the pilot lights. Mail—arrange to have a friend take care of it and leave them a forwarding address. Papers, milk and other regular deliveries should be suspended to prevent potential prowlers from recognizing your absence from home. Windows and doors—all should be carefully locked! Refrigerator—cleaned out, power shut off, and door left open unless you can have someone check it regularly. Yard—make some arrangements to have it and your garden taken care of. Then when everyone is packed and out of the house, check it over again to make sure all is secure.

Take With You—A good first-aid kit, a flashlight (with new batteries), warning light, (fuses or reflector) to use at night in changing a tire or case of trouble, and an extra set of car keys. It would also be handy to have an alarm clock, electric iron, can and bottle opener, thermos jug, small light cooler, cleaning tissues and perhaps a washcloth or two.

Your Car—besides checking the motor and tires,

Angelica Raceway News

DEMOLITION NEXT WEEK

The much-needed rains of last Friday night forced the postponement of the races at the Angelica Raceway. The demolition race and a big racing card have been rescheduled for next Friday night, July 26. This Allegany County raceway has become noted for the best demolition derby of any track. Excitement reigns the entire evening and is climaxed when some eight or ten old cars try to put each other out of working order. All the action takes place right before the grandstand.

Drivers from other tracks have come in to take a crack at Pete Tingue. Others are expected. However, Irv Hall, Maurey Smith, DeVere Bliss, Eddie Anchor, Roger Ott, and others are moving in on Pete. Dick Flaig of Williams-

Visit Reiss Game Preserve and Animal Park on Wolf Run Road—off Haskell Road which runs between Olean and Cuba, N. Y. Phone FR2-8628.

10,000 game birds and wild animals to see and feed. Buffalo, Deer, Cougar, Lion, Wolves, El-land, Leopard, & etc. Picnic area, concession stand, dinners served at lodge by reservation, motel, trout fishing—no license required. Bring the family for a day of fun in the sun. Open until November 1.

ville, driver of the new car No. 33 has challenged Pete on other tracks and promises to do so at Angelica, known to be Pete's favorite track. Join the crowd at the area's biggest sporting event next Friday night.

also check the wipers, brakes, light bulbs, battery, radiator, lubrication and fluid level if you have power brakes or automatic transmission. Last but not least make sure you have air in the spare and a good tire jack and rim wrench.

For Your Expenses—use a credit card whenever possible, and don't carry or flash large sums of money—its much wiser to use travelers checks or some other type of check that has to be counter-signed by you—and then of course it also helps to have a little "mad money" along in case you lose your wallet or meet up with an unexpected expense.

Then—Happy Vacation!
