Childrens Pictures Taken Free And Published In The News

Thursday, October 17 is the big day for the picture taking of your youngsters! The News is having pictures taken of all children who are brought by their parents or other guardian to the Vars' Men's & Boys' Wear Store between 1 and 5:30 p. m., absolutely free of charge.

The News wants a picture of your child to print in its forthcoming feature, "Citizens of Tomorrow", a series of photographic studies of local children. Children who have been photographed for this feature in previous years are especially invited to return, so that we may see how they have changed. The more we get the better the feature will be, so the cooperation of the mothers and fathers is urged.

It often seems to parents that children are little one minute and are grown up the next, so fast does a child's growing stage pass. Here is a splendid opportunity to catch a likeness of your child or children at the present stage for the pleasure you will get out of

it in future years and for the pleasure you will enjoy in seeing it in print. You will want to clip it from this, your home town newspaper, and preserve it for the youngster when he or she grows up.

There is absolutely no charge or obligation for taking the pictures. Parents don't even have to be a subscriber to the News nor even a reader. You do not have to purchase pictures either, though you may obtain additional prints by arranging direct with the Studio representative if you want them. This is entirely up to you! No appointment is necessary. There is no age limit.

If you wish to make an appointment phone—Miss Penny Hames at 8-4734, however, no appointment is necessary. You may come at any time during Studio hours. All children must be accompanied by a parent or guardian. Photography will be handled by the Dansville, New York office of Woltz Studios of Des Moines.

New Emergency System Replaces Conelrad

Following the discontinuance of Conelrad, new procedures for broadcasting Civil Defense emergency information to the public were described recently by Raymond J. Barbuti, acting director of the New York State Civil Defense Commission.

"The public should now disregard the 640 and 1240 frequencies formerly reserved for civil defense broadcasts in an emergency, and tune in local stations at their regular positions on radio dials," Mr. Barbuti said.

"Under Conelrad, only authorized stations broadcasting on 640 and 1240 were allowed to remain on the air during an emergency. The new system allows all radio stations which meet basic requirements to remain on the air."

"Ultimately, the network of New York radio stations qualified to broadcast in an emergency will exceed in numbers and capability the facilities afforded under Conelrad," he said.

S. S. Suspend College Qualification Test

The Selective Service College Qualification Test, used since 1951 to help local boards decide student deferment cases has been suspended. No test will be offered for the 1963-64 school year.

The suspension of the test, usually given in April, was announced by C. E. Backus, Chairman of Local Board #1, Belmont, New York. The decision to suspend the test was reached by Director of Selective Service, Lt. General Lewis B. Hershey, because of the small numbers of students who have applied for the test in recent years. The score made on the test was made a part of the student's official Selective Service local board file. The score was weighed by the local board along with other information in deciding whether to defer a student.
