**TB: The Lively Corpse**

People in the State of Utah had every reason to congratulate themselves. They had achieved and enviable record — the lowest tuberculosis case rate in the entire nation, amounting to only two per 100,000!

"TB problem?" A thing of the past, it was widely agreed. Just a ghostly memory of the old times when huge sanatoria were still being erected and filled.

Then overnight, tragedy brought a jarring reminder that those "old times" weren't completely dead. In Salt Lake County the mother of a large family was found to have a case of far-advanced TB. Prompt examination of her children showed that four of them, between the ages of one and four, also had the active disease.

Next some relatives were examined, three more active cases were found, all under the age of five. All eight sufferers were immediately hospitalized, while the Utah Tuberculosis Association and the state health department joined in an intensive search for fur-

ther contacts. For, unless every person who had received the active germ could be detected and isolated, there was no telling how far the disease might spread.

Fortunately, no widespread outbreak took place. Utah has kept its leadership in low TB incidence and is in line for renewed congratulation.

What the episode really proves, however, is that communities big and little achieve relative freedom from TB not by ignoring the menace, but by keeping up their guard against it. With the aid of Christmas Seals, Utah TB Association people and confidently expecting to be ready with all decks cleared if and when the next outbreak comes along. They're hoping, too, that the recent episode will help turn back the "tide of apathy" about TB which strikes them (quite understandably) as thoroughly premature.

**Notice To Owners And Harborers Of Dogs**

Dog licenses for 1963 expire on December 31, 1963. The 1964 license fee is due January 1st. Licenses so issued will cover the period from January to Decem-

ber 31, 1964. Every dog must wear a tag of the current dog license year. A dog without such a tag is not protected by law and no action can be maintained for his injury or destruction.

An unlicensed dog, must be seized and killed and the fact that a dog is without a tag is presumptive evidence that the dog is unlicensed.

Dog licenses must be obtained from the clerk of the city or town where the dog is harbored or kept.

License fees: Male Dog, \$2.25; Female Dog, \$5.25; Spayed Female Dog, \$2.25.

No license can be issued for less than the full license year.

The owner of a dog, who fails or refuses to obtain a license for the dog as required by law incurs a penalty of \$10.00 and costs.

The enumerators of towns and the police department of cities are required to prepare in January of each year a list of dog owners. The omission of the name of an owner from such lists will not excuse the owner from obtaining a license.

If you owned a dog last year and do not own one now, so advise the clerk of your town or

city. Dog licenses in the Town of Andover may be obtained from Mrs. Genora Pelton, Town Clerk.
