Any and all Dads who would like to help out with the Grasshoppers—come on up to the diamond and join the fun. Remember its Friday night, 6 to 6:30 to sign up—Practice on Monday, 6 to 7 p. m., all boys ages 6 to 8.

News That's Print To Fit

Well, well, we noticed that the "Island" (in Main St.) has been all nicely mowed and spruced up so that with just a "quick-hair-do" it will be in fine shape for the 4th of July Celebration.

Along this same line we also saw the State Crew taking care of their haying job between the "Island" and the Village limits along the Railroad Side which also makes a marked improvement in the looks of that approach to our Village.

Now all we need is a few more spots mowed and spruced up and things will look a lot better for all of the visitors that will be coming to the Celebration.

Incidentally, that reminds us that according to our memory there is a Village Ordinance that covers the mowing or cutting of grass (or weeds) on property bordering the Village Sidewalks. We believe that this works the same way as keeping the walks clear of snow—if the property owner does not take care of it—the Village has the right to have it taken care of and then send the bill to the taxpayer! Perhaps this should be looked into a little closer, especially in a few sore spots (or eyesores).

While on the improvement subject, we received a News Release from the State Traffic Safety Council stating that 57 N. Y. State Counties have been urged to set up a traffic engineering department or at least hire one professional traffic engineer in order to combat highway accidents.

We don't know what good this would do around here because even after a potential danger point has been pointed out to Officemus, nothing seems to get done about it.

Take the case of the bridge on North Main St. When the project was originally proposed to put a sidewalk on the West side of the bridge—it was with the idea of tearing off the upper concrete portion in the interest of traffic safety.

After the sidewalk was put in—it has sort of become a forgotten step-child and only noticed when we hear about, or have a close call there ourselves.

It's beginning to look as if we are going to have to put a photographer on the job in order to show just how much of a blind spot this really is.

We have heard quite a little comment about the dances that were being held at the theatre after the show on Saturday nights.

According to the grapevine, the persons that are responsible for at least part of the vandalism that went on two weeks ago were seen while they were in action.

If these witnesses would only come forth and pass their information on to the proper authorities—more than likely the dances could be resumed—and the ones to blame for it would have to take their medicine instead of making everyone that is interested have to help pay their penalty.

To switch over to a cheerful note—we understand that "Jim" Jackson who recently received the "Fireman of the Year Award" from both the Western N. Y. and State Volunteer Association, was called into the office at the Air Preheater in Wellsville and informed by the Company Officials that they would furnish him air transportation in their Company Plane for his trip to New York City to receive his State Award. We personally think that this is wonderful and wish Jim all the luck in the world for his forthcoming trip.

Cub Scouts To Hold Picnic June 28th

There will be a picnic for Cub Scouts and their families at Island
