Farm Safety Week

At the meeting of the Soil and Water Conservation District Directors Karl Vossler of Wellsville said "people living on farms is decreasing, but fatal accidents per 1000 for farm residences, is going up."

National Farm Safety Week is July 20th. Let us all protect our lives throughout the year by observing good safety rules. Some of the hazards are hidden farm access roads, blind intersections, slow moving vehicles on highways, safety guards on machinery not in place, loose clothing around farm power machines.

Let us all observe good safety rules this week and the other 51 weeks of every year.
