"Millions of mothers ask, — 'WHY?' This question is the motivation behind this year's March of Dimes. It is the reminder to all people of the grief that accompanies the birth of a baby with a birth defect.

Most of us remember the March of Dimes for its drive to conquer Polio. With the realization of that goal, the March of Dimes continues to aid medical science, this time by fighting birth defects.

This goal will perhaps be more difficult to reach. Few people realize that there are born every year in the United States a quarter of a million babies defective in body or mind. One out of forty of these babies dies before he is one year old. By supporting fifty Birth Defects Centers and Clinics, the March of Dimes is helping these children with birth defects to live longer, healthier lives.

Perhaps you're wondering, "Why give, if we don't receive any of the help?" Allegany County contributions are used here in Allegany County to aid those families with children with birth defects or polio. (Oh, yes! There's still polio.)

Why be on the outside looking in? Give to the March of Dimes. Your contributions will someday answer that question "WHY?"

### School Spirit, Unlimited

At the beginning of the basketball season, a pep assembly was held. Although the assembly was devoted mostly to the basketball players and the up-coming game, the coaches representing the other sports in our school were also introduced. Mr. Barden, the swimming coach and Mr. Wilcox, the wrestling coach. When Mr. Kessler spoke, he tried to impress upon the student body the importance of school spirit. But, he didn't mean just during the basketball season; this spirit should make itself known at swim meets and wrestling matches and anything else that is done by our school, as well.

Now that the swimming and wrestling seasons are well under way, it should take no great effort on the part of the student body to give these teams the same support that is being given at the basketball games. These teams, also are representing Andover Central School. They don't work and practice just so they can put on a performance for the very few who do come. Why shouldn't the swimmers and wrestlers receive the same support that the basketball players receive?

So, Let us keep in mind that school spirit is something that should be unlimited—throughout the basketball season, the swimming season and the wrestling season and throughout the whole year. It is little to ask when it means representing A. C. S., in the best way known.
