Editorial

With this hot weather, the trees and flowers are budding and blooming. Chances are, we go for a ride in the country. We see the beautiful, delicate greens and whites. Everything seems to look its best for Spring when —

A stream running alongside the road looks like solid mud and dirt. The banks are bare dirt. There is not one sign of a bird or animal or plant.

Probably not one thought was given to the WHY of the situation — just a notation of it. The reason could be a forest fire or poor soil use. In either case, the ruin of the creek and the waste of the soil could have been avoided.

One of the troubles with most people today is that, should they see such a situation, they say, "Oh, let somebody else restore it." The somebody-elses are trying to restore these eye-sores but there aren't enough somebody-elses.

It takes the whole population of this country to keep the land looking decent. In the woods, we all must be careful of cigarettes and cigars, and campfires and trash-fires. We all must use waste-cans for trash. We can all plant bushes and shrubs along fences. Land-owners can see that soil will not be eroded simply because the hill was plowed up-and-down. We can let timber stand if another field is not essential.

In order for everyone to be able to enjoy our natural beauties, all of us must help these miniature wildernesses remain. Otherwise the park may be the only place that we can see the wondrous sights of Nature.

Purple And White

Last Friday the Andover Baseball team won its first game of the season, 5-3, at Fillmore. In the first inning, Bob Joyce walked while John Hames and Ira Connor had singles which scored Bob Joyce. Two more walks and an error brought in two more Andover runs. The winning pitcher was Dave Thorp.

WITH ETERNAL LOVE . . .

The selection of a Memorial as a perpetual mark of love and respect for a departed loved one is a most personal affair. High-pressure salesmanship and competitive huckstering have no place in so important a decision.

For all of our more than 50 years in the monument business it has been our custom, out of respect for the bereaved, to wait a suitable time before making a business call.

At such a time of great personal loss it can be a great comfort to know that the details of Memorial selection can be eased by dealing with a firm long known for its integrity and attention to detail.

Our selection of monuments and markers is the largest in this area. Installation of any in-stock item requires only 15 days. We also offer complete lettering service, and no payments until monument is set.

For personal service call "Dick" Umiker at the shop days, or arrange for an evening or Sunday appointment.
