## News That's Print To Fit

Well, we guess that the first order of business should be under the old business heading, and remembering "Dick's" expression, a promise made is a debt unpaid. We will fulfill a promise made before the 4th of July.

As far as the publicity was concerned, we at the News Office, used what was brought into us in addition to chasing around every week trying to get additional information. However, someone must have been sitting on some of it as we saw information was given to the Reporter which wasn't turned into us. Also there was other information and a lot of advertising done over the radio station — which we didn't see anything of. Yet whenever there is a notice of meetings throughout the year — this is expected to be published as a Public Service or the front page. How about that? — After a while both cheeks get a little tired!

Well now to get back to the present! Here we have visitors that come up to see us from Florida (our relatives that live in Orlando) and what happens to the weather? Immediately the wind starts to blow off the North Pole so that the Mercury drops, and drops — until it finally reads a chilly 32 degrees early Tuesday morning. Needless to say, they were about "Fritz up" and were glad to get started back to Florida later on that day.

According to the boys down at the Pump Station the following readings were recorded: Monday the 19th — low 50, high 67; 20th — L-32, H-69; 21st — L-34, H-78; and today's Low-44, and the present reading is a chilly 50 degrees.

with a slight precipitation — despite the fact that the weatherman predicted it to be fair and warmer!

For a while Trustee Charley had a mystery going the first part of the week as someone drove into his pretty flower bed in the "Island" with a compact or sports car, tearing down the fence and damaging the flowers. However, later on we found out that the driver reported the incident and is willing to pay for any damages incurred which he reportedly said was caused when another car's lights blinded him and he kept going straight instead of turning to the right.

With everything at 6's and 4's, we almost forgot an item that made a very favorable impression on us.

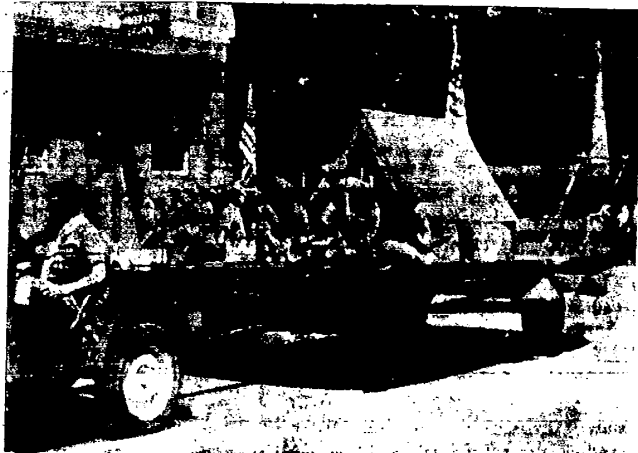

To start our big week out, last Thursday we had company arrive from N. Y., so Friday evening we were trying to figure out a suitable place close-by to entertain them for dinner.

Playing an Editor's hunch, we called Hotel Fasset to see what, if anything, was cooking down there and were pleased to hear that they were serving a Smorgasbord every Friday and Sunday evening.

Thus we dressed up a little and got there as early as possible — for us anyway — and were really delighted with what we found.

The menu was as assorted, varied, and tasty as we have run across anywhere else — and of course you had your choice of whatever you wanted — and as much as you wanted.

Thus, if last week was a true sample of what it is like every week, and you are looking for a different place to eat — we suggest you try the Smorgasbord at the Gold Room — Friday or Sunday night.
