Hi Herald

Another Year

by Kathy Shellman

If you're anything like me, all summer you've been saying, "Oh, how I dread going back to school". In spite of that, it surely, was nice getting back and telling about all the summer fun. Then there are those who feel better because they passed their summer school subjects. If you are among that group, congratulations.

There are those, too, who aren't happy to get back. Come on! Don't be that way! I think we all can have fun this year. We have a great deal of hard work ahead, but there is no greater combination than work and fun. Of course, work must come first.

This pertains not only to homework, but also to other activities. All of us should contribute our very best to sports and to musical activities so that when we have a ballgame or concert, we can walk away proud.

To the Seventh Graders, I'm sure everyone joins me in saying it will be nice to have you passing to and from classes with us. To those entering high school, good luck and work hard.

I hope everyone has a fine year.
