**A Day Off?**

Next Thursday is a very special day, a day which many are looking forward to so that they will be released from their daily duties and be given a day off. That, unfortunately, is what many consider November 11 as, a day off. They know it is Veterans' Day but Veterans Day has on'y a name and no real meaning to many — especially the younger people. But really it is these young people who should be so very thankful for this day and its meaning.

This holiday is proclaimed annually by the President of the United States in honor of former members of all branches of the United States Armed Forces—to recall their sacrifices during war and to pay tribute to their contributions to peace. It was originally proclaimed "Armistice Day" to commemorate the signing of the Armistice that brought to an end World War I. Then in 1954 our beloved former president Dwight D. Eisenhower, signed an act of Congress to "honor veterans on the eleventh day of November of each year — a day dedicated to world peace."

Though each day is now being dedicated to world peace, November 11 is a day when everyone should give a little extra thought and offer a prayer in honor of those who contributed so much to this world of ours. It's not really a "day off" in the sense, but a day our nation spends in silence remembering veterans of war and even more important; veterans of peace.
